VOL. LXXXVI.--NO. 109. PITTSBURGH, MONDAY, MAY 15, 1871. FIFTEEN CENTS PER WEEK.

FIRST EDITION.

MIDNIGHT.

HARRISBURG.

House Session.

THE CENTENNIAL

Savings Bank Bill.

PHILADELPHIA PUBLIC BUILDINGS.

[Special Dispatch to the Pittsburgh Gazette.]

HARRISBURG, May 13, 1871.

SENATE.

The Senate is not in session to-day, having adjourned last night till Monday afternoon.

HOUSE.

The House met at 10 o'clock A. M.

Prayer by the Chaplain.

ADJOURNMENT.

Mr. MEEK offered the following:

Resolved, That when this House adjourns to-day, it adjourns to meet on Tuesday morning at 10 o'clock.

Mr. MANN moved to amend by substituting Monday evening at 8 o'clock.

The amendment was voted down and the resolution was adopted.

THE CENTENNIAL.

The Speaker appointed Messrs. Elliott, White, and Josephs as the additional members of the Legislative Centennial Committee.

BANK BILL.

The Senate amendment to the bill incorporating Five Cent Savings Bank of Pittsburgh, reducing the rate of interest from ten to six per cent., was concurred in.

PHILADELPHIA PUBLIC BUILDINGS.

Mr. STRANG moved that the Senate bill passed last night in reference to the Philadelphia Public Buildings Commission, be referred to the Philadelphia Delegation.

The Speaker said that as the bill referred the matter to the vote of the people, involving a legal and constitutional question, he would refer it to the Judiciary General. After some discussion, the Speaker decided he would hold the bill over till Tuesday, to be disposed of by the House.

The House then adjourned till Tuesday morning at ten o'clock.

ST. LOUIS.

The Mississippi.

ST. LOUIS, May 13.—The Merchant's Exchange of Board of Trade of this city have passed joint resolutions which will be given to Senator Schurz and other western Senators protesting to the Secretary of War against expending any more in building additional vessels after the plan of the Essayons, for the purpose of removing obstructions from the mouth of the Mississippi river until other plans have been investigated, and asking the Senators and Representatives of Missouri and other States in the Mississippi Valley to obtain, if possible an appropriation for testing the plan of Colonel Garven for raising by a floating dock and conveying vessels over the bar which has proved so successful in Europe, believing it a sure and speedy way of effecting the purpose, and one that can be maintained more cheaply than any that has yet been tried.

THE BAPTISTS.

ST. LOUIS, May 14.—In the Southern Baptist Convention yesterday the Committee on the Mission to China made a report and resolutions were adopted that the general aspect of the missionary work in that Empire commend it to the sympathies, prayers and contributions of the entire Baptist brotherhood as the great field for missionary efforts; also, that in view of the recent massacre of missionaries at Tien Tsin, and the impression that a general rising of the Chinese against foreigners was likely to occur and would be connived at, if not encouraged by the Chinese officials, the Board correspond with the Government authorities in relation to the safety of our citizens as guaranteed by the treaty between China and the United States. The report of the Committee on colored population was adopted. It recommends that pastors and conductors of Sunday schools, whom they greatly need, be furnished as far as possible from among themselves, and that general and ministerial schools be provided. The report of the Committee on Religious Interests of the Chinese in the South, of whom there are some 3,000, recommended that efforts be made to reach them in the English language through Sunday schools. The report of the Committee on European Missions states that a Christian Mission has been planted in northern Italy, that the opening of Rome has permitted the preaching of the Gospel, the conversion and baptism of several prominent young men, and the organization of a Christian Church after the model described by Saint Paul in that city, and that Dr. Cole, a devoted missionary, has gathered a class of candidates for the gospel ministry and has initiated an extensive plan of colporteur and mission work throughout the entire length of the Italian peninsula. In this connection resolutions were adopted that the foreign mission board be desired to consider the expediency of the appointment of a general superintendence of European missions, and that our churches be urged to take means for providing the support of the young Brethren already gathered by Dr. Cole at Rome, the sum of two hundred dollars being requisite for each of these young men. A resolution was adopted by a large majority, expressing earnest sympathy with the Baptist brethren in England in their efforts for the liberation of religion from State influences. The Committee on enlargement of the work of the Board of Foreign Missions, reported that the number of laborers in the foreign field had been more than doubled during the year, and recommended that the same line of policy be authorized by the Convention for the ensuing year. In the evening a mass meeting was held in the interest of Foreign Missions, at which J. B. Hartwell, lately returned from China, delivered an address containing much information in regard to China and the progress of the missionary work there. A large number of delegates to the Convention have preached in the various churches to-day, and attended the various Sunday Schools of their denomination.

SCRANTON.

Important Meeting of Miners.

SCRANTON, May 12.—An important meeting was held in Bellevue yesterday by the miners and laborers of that place, who from absolute want need a speedy resumption of work. The first business after organization was the passage of the following resolutions:

Resolved, That we, laborers and miners of Bellevue, do, by this resolution, forever dissolve our connection with the Workingmen's Benevolent Association, and that we accept such terms as we may as individuals agree to.

Resolved, That we inform the coal companies and coal operators of the Luzerne district that we are ready to proceed to work on the terms offered to the Union miners yesterday, so soon as the mines can be thrown open to us.

This meeting was not a very large one—one hundred and fifty persons being present—but it was very enthusiastic. Several pointed and telling speeches were delivered, and Mr. Garrity, chairman of the committee, appointed to wait upon Mr. Storres, the local representative of the Delaware, Lackawana and Western Company, to ascertain from him what the company would be willing to do, reported that he had just had a full and free discussion with Mr. Storres regarding the resumption of work, and the mode of accomplishing that end. That official had advised the laborers to remain steadfast and adhere to the new organization which they had just formed, to stand by each other and they would soon reap their reward. The speaker said that the objects of the Union were good, and had been prosecuted by the Welsh mine bosses. All that the laborers wanted was a fair day's wages for a fair day's work, and that they were in the future determined to get it. The Delaware and Hudson Canal Company's men will meet in Providence to-day, to take into consideration the last proposition of that company, which is a very slight advance on the previous offer, and it is pretty well understood that if the miners reject the terms offered, the companies will make an attempt to work their mines without their assistance. In making this concession the companies have virtually receded from the stand taken by them, to pay eighty-six cents per car and no more under any circumstances. It is a virtual back down and acknowledgment of the strength of the Workingmen's Benevolent Association. And it is possible that the latter organization having gained so much, may continue to adhere to the November prices—one dollar and thirty-one cents per diamond car. Many think the miners are masters of the situation.

DELAY IN RESUMPTION.

SCRANTON, May 14.—The general resumption of mining here has been considerably postponed by the recent action of the corporation and the uprisings and disorders not unlikely to follow these complications.

PHILADELPHIA.

The German Jubilee.

PHILADELPHIA, May 12.—In anticipation of the great German Peace Festival, flags have been displayed throughout the city. In many places French, German and American flags are entwined. The procession on Monday promises to be the greatest event in this city. This morning in a number of Synagogues the Peace Festival commenced with appropriate religious services.

THE COAL TROUBLES.

The Pottsville *Miners' Journal* says: Resumption in all the coal regions is now fast becoming a fixed fact. In Schuylkill work will generally be resumed on Monday. The independent collieries in the Wyoming region are also preparing to resume, and in the regions of Columbia and Northumberland counties, special agreements have been made.

Reprieved.

HAVANA, May 13.—A dispatch from Santiago De Cuba to-day says that Valmesada at the last hour, reprieved Bepilio Horrutionier and others who had been ordered to be shot at seven o'clock this morning.

THE CAPITAL.

The New Loan.

THE TREATY.

Colored Population.

THE WEATHER

War Vessels Changed.

WASHINGTON, May 13, 1871.

THE TREATY OF WASHINGTON.

There is no doubt that four or five Senators have prepared amendments to the Treaty of Washington. A number of Senators are preparing to deliver elaborate speeches on the subject, which will hereafter be published, should the injunction of secrecy be removed. The recent comments on the treaty, both in England and Canada, have disposed Senators to look more closely into its provisions and relative bearings, and there is ground for the belief that the session will be prolonged for three or four weeks.

The Committee on Foreign Relations are again in session on the Treaty of Washington. The select committee on the breach of Senatorial privileges have commenced their labors. Subpœnas have been served on several correspondents.

The Committee on Foreign Relations will report to the Senate the treaty without amendment on Monday.

THE WEATHER.

Synopsis for the past twenty-four hours: The weather remains unchanged on the California coast. The barometer has risen west of Nebraska, with continued light and heavy rains. It has risen on the lakes and in the Mississippi Valley, and has fallen slowly in the middle and eastern States. Partially cloudy and clear weather, with fresh and light winds, have generally prevailed east of Mississippi. An area of low pressure is indicated some distance off the east Atlantic coast. The rain prevailing on Friday evening in North Carolina, after extending to Delaware, ceased in that region, but has continued very persistently on the North Carolina coast, with light northwesterly winds.

Probabilities.—It is probable that the North Carolina storm will slowly move eastward without extending into the interior. No material change is indicated for Sunday, east of the Mississippi valley and rainy weather is probable west of Iowa.

TAXATION.

The Attorney General decides that interest and coupons with dividends accruing and salaries of the United States officers, earned for the last five months of 1870, are all subject to revenue and income taxation, and corporations and persons interested must be held to the payment of the tax.

THE NEW LOAN.

Subscriptions to the new loan to date, $64,447,000, and delivery will begin by the middle of next week. The condition of the loan is regarded as very encouraging.

WASHINGTON, May 14, 1871.

THE WEATHER.

Synopsis for the past twenty-four hours: The weather remains unchanged and somewhat warmer on the Pacific coast. Clouds and rain have extended into Nebraska, and partially cloudy weather is reported from the lakes. The rain storm on the coast of Carolina has entirely cleared away, and clear weather has prevailed in the Atlantic and Gulf States. The barometer is now falling in the middle States and on the upper lakes. The temperature has decidedly increased in the interior. Light winds generally prevail. No reports have been received yet from the Gulf coast and the northwest.

Probabilities.—It is probable that a light storm will be developed on Monday west of Illinois and local disturbance to-night in the middle Atlantic States. Easterly winds are probable for Lake Erie and Lake Superior on Monday.

UNDER DISCUSSION.

While it is known that the majority of the Senators are in favor of ratification of the treaty of Washington as a measure of peace, some of them will prepare amendments to several provisions which they consider not sufficiently plain, and which, without modification, may lead to dissatisfaction for the future. One of the objections against the treaty is that the San Juan question is to be submitted to the arbitration of the Emperor of Germany. The recent report of his indisposition, he being an old man, suggests that in the event of his death, his son Frederick William would succeed to the throne and thus take the place of his father as arbitrator should the question not be settled during the present Emperor's lifetime. The arrangement of the Joint High Commission is considered unfortunate in the fact of the Prince having married Victoria Adelaide daughter of the Queen of England as he might therefore be influenced in his determination of the question, by family considerations.

NAVY MATTERS.

The iron clads now at Key West and in the tropics have been ordered to northern navy yards and will during the ensuing summer be thoroughly overhauled and cleaned. Wooden vessels will take their place as being cooler and more comfortable in warmer climates.

COLORED POPULATION.

The returns at the census office of the colored population of the States and Territories is about 4,857,000.

THE RIVERS.

CINCINNATI, May 13.—River 40 feet and stationary, 62 feet under the bridge. Departed—Arlington, Pittsburgh; Lawrence, Memphis; Belfast, New Orleans.

CINCINNATI, May 14.—River thirty-six feet and falling; sixty-six feet under the bridge. Arrived: Kate Putnam and Juniata from Pittsburgh; Messenger from St. Louis. Departed: Juniata and Messenger for Pittsburgh; Kate Putnam for Nashville.

MEMPHIS, May 13.—Weather clear; mercury 78 deg. River rose 6 inches. Arrived—Allen, Arkansas. Departed—Grand Tower, Utah; Commonwealth, St. Louis; Jno. Kyle, New Orleans; Walt, White river; Robt. Mitchell, with 1,000 bales of cotton, City Vicksburg, Vicksburg.

MEMPHIS, May 14.—Weather clear; mercury 80 deg. River rising slowly. White and Arkansas falling. Arrived—Sam Hale from Cincinnati. Departed—Glencoe, Evansville and Virginia, for St. Louis.

ST. LOUIS, May 13.—Arrived—City of Pekin, Peoria; Dexter and Henry Ames, New Orleans; St. Johns, Davenport; Lucy Bertram, Keokuk; Warner, Louisville; Northwestern, St. Paul; Florence, Quincy; General Anderson, Mound City; Dictator, Cairo. Departed—City of Pekin, Peoria; Sam Clark, Lasalle; Lucy Bertram, Keokuk; Red Wing, St. Paul; Glasgow, Omaha; Bonaccord, Mound City; City of Cairo, Vicksburg; Lady Lee, Red River; Sallie, Arkansas River; W. J. Lewis, Kansas City; Abeona, Cincinnati; Bismarck, New Orleans; Antelope, Cairo; Robb, Illinois River; Warner, Wheeling. River stationary. Weather clear and warm.

ST. LOUIS, May 14.—Viola Bella, from Omaha; Davenport, from St. Paul; City of Chester, from Memphis; Harry Johnson and Keokuk, from Cincinnati. Departed—Atlantic, for New Orleans. River falling. Clear and warm. The W. J. Lewis, which left on here Saturday evening, broke her shaft before she got out of sight of the city, and floated back through the harbor and was towed to the landing by a ferry boat. The Lucy Bertram burst a steam pipe after leaving the levee last evening, but was repaired and she left again at midnight. The Ida Rees reached Fort Benton yesterday, being the first boat this season.

LOUISVILLE, May 14.—River receding; fallen six inches; fourteen feet six inches in chute, six feet six inches in canal. Clear and warm. Business very dull. Arrived—Belfast and Lawrence, from Cincinnati; Glasgow from Arkansas River. Departed—Lawrence, for Memphis; Belfast leaves for New Orleans to-morrow; Tow boat Dick Fulton left for Natchez with two hundred and seventy-six thousand bushels of coal; Eagle, for White river with a heavy tow; Blue Lodge leaves to-night for Cairo with a full tow; N. J. Bigley brought the remainder of the J. H. Bigley's tow for below; the Friendship arrived and is patching up her boilers previous to departing for St. Louis; Kanawha passed for Pomeroy, Hyena for Pittsburgh.

CAIRO, May 14.—Belle Memphis, from St. Louis for Memphis, at 9 A. M.; Virginia, from Louisville, for New Orleans, at 9; Colorado, from Vicksburg, for St. Louis, at 10; John Lumsden, from Cairo, for Nashville, at 6; Argosy, from Cincinnati, for New Orleans at 7; Charles B. Church, from Cairo, for New Orleans, at 8; Abeona, from St. Louis for Cincinnati, at 11; Lady Lee, from St. Louis, for Red River, at noon; Sallie, from St. Louis, for Arkansas River, at noon; City of Cairo, from St. Louis, for Vicksburg, at 2 P. M.; Commonwealth, from New Orleans, for St. Louis at 3; Idlewild, Evansville packet at 6; Talisman, from Nashville, for Cairo, at 6; Grand Tower, from Memphis, for St. Louis, at 6; Warner, from St. Louis, for Pittsburgh, at 7; Tigress No. 2, from Louisville, for Cairo, at 7, General Anderson, from St. Louis, for Mound City, at 7. River rose three inches. Clear; Mercury 84 at noon and 72 to-night.

CAIRO, May 13.—City of Chester, Memphis to St. Louis at 10 P. M.; Anna, Cincinnati to St. Louis at 11, Indiana, New Orleans to Louisville at 2 A. M.; J. H. Groesbeck, New Orleans to Cincinnati at 3. Rover, Cairo to St. Louis at 6; Edinburg, Red river to Cincinnati at 11; Sam. J. Hale, Cincinnati to Memphis at 11; Pauline Carroll, St. Louis to New Orleans at noon; Antelope, Cairo to St. Louis at 3 P. M.; Charles B. Church, Cincinnati to New Orleans at 5; Arkansas Belle, Evansville packet, at 6. The river rose ten inches. Weather clear; mercury 74.

EVANSVILLE, May 13.—Weather clear and hot. Mercury 88. The river has risen 2 feet. Port list up—Emma Floyd 7 P. M.; Glasgow 12, Emperor and barges, 4; Idlewild, 6; Palestine, 8; Charmer, 8; Fayette, 10. Down—Tigress and barges and Argosy and barges, 8; Morning Star, 11; Falls City, 12; Mary Ament, 2; West Wind, to Wabash River, 5; all with good trips; business improving.

EVANSVILLE, May 14.—Weather clear and hot as in mid-summer; mercury 86. Port list Up—Nashville, 8 P. M.; Quickstep, Indiana and Brill, 7 A. M.; Jno. H. Groesbeck, 8; Fayette, 10; W. H. Cowan and barges, 1; Adie Hulman, 4; Edinburg, 5. Down—Hermit No. 2 and Petrel No. 2, 7; Houston Combs, 10; Valid, 11; Tarascon, 1:30 P. M.; America, 2; Bolie, 3; Bowling Green, 5; A. C. Gray, 6—all with big trips or tows. River has risen 18 inches.

NEW ORLEANS, May 13.—Arrived—James Howard St. Louis. Departed—Bee, barges and Richmond, St. Louis; Clarksville, Arkansas; Potomac, Cincinnati.

NASHVILLE, May 13.—River rising, twelve feet on Harpeth Shoals. Weather fair and warm. Arrived—Mollie Ragon, Evansville. Departed—Tobe Hunt, and Umpire, Upper Cumberland; Mollie Ragon, Evansville.

VICKSBURG, May 14.—Down—City of Alton and Yager; last night Mary Houston, Katie and Minnie; to-day Susie Silver, Olive Branch and Mary Miller. Up—Lockwood and Belle of St. Louis. Weather warm and clear. River stationary.

The Civil War.

BLOWN TO ATOMS.

A Bloody Demand.

NAVAL COMBAT.

Traitors Shot.

ROSSEL AT WORK.

Bank Clerks Arming.

LEVYING EN MASSE.

Dombrowski's Life Attempted.

FRANCE.

A NAVAL COMBAT.

LONDON, May 13.—The *News'* special correspondent at Versailles reports a naval combat at Anteuil, and that one insurgent gunboat was sunk.

STRENGTHENING THE FORCES.

The same correspondent says that 5,000 Versailles troops will cross the Seine to-night to strengthen the force already in occupation of the towns of Boulogne and Billancourt.

CHASED FROM SABLONVILLE.

The *Telegraph's* special from Paris says that a reconnoisance under General Dombrowski has chased the Versaillists from Sablonville.

COURT-MARTIAL ESTABLISHED.

A permanent court-martial has been established in Paris.

BANK CLERKS ARMING.

LONDON, May 13.—The *Times* special from Paris says that the clerks in the Bank of France have been armed and victualled, and are resolved to stand a siege from the Federalists.

NEWSPAPERS SUPPRESSED.

More newspapers have been suppressed.

FIGHTING REPORTED.

Fighting is reported at St. Ouen, which shows that the sphere of attack is extending.

A GERMAN DEMAND.

The German commander has demanded the disarmament of the northern enciente of Paris.

THE SEMINARY AT ISSY.

VERSAILLES, May 13.—The seminary of Issy has been captured with considerable loss to the Federalists.

CANNON CAPTURED.

Eight cannon have been captured at Oiseaux, where one hundred insurgents were killed and several hundred taken prisoners.

BEING PUSHED FORWARD.

Approaches to the ramparts and fortifications of Paris are being actively pushed forward under cover of a heavy cannonade of the entire Federal works.

AN ADDRESS BY M'MAHON.

M'Mahon made an address to his soldiers which is apparently a preliminary to the grand attack.

BANK OF FRANCE SEARCHED.

PARIS, May 12.—Under orders from the Commune the Bank of France has been searched for arms. None discovered.

A BLOODY DEMAND.

The newspaper *Sociale* proposes an immediate execution of all members of the Central Committee. It is reported that the Central Committee are about to retire from office.

RUMORED EVACUATION.

There is a rumor that the Federalists are evacuating Fort Vanvers.

STRONG BID FOR THE THRONE.

VERSAILLES, May 12.—A letter from Count De Chambord, making a strong bid for the throne is published to-day.

ATTEMPTED ASSASSINATION OF DOMBROWSKI.

The *Le Venguer* reports an increasing discouragement among the National Guards and says that an attempt has been made to assassinate Dombrowski.

MEETING OF FREE MASONS.

NEW YORK, May 13.—A special Paris dispatch of last evening says: The meeting of Free Masons held this afternoon in the Cirque Nationale resolved that the property of persons now absent from Paris and not returning within eight days, would be confiscated for the benefit of widows and orphans.

HEAVILY ARMED.

The ramparts are heavily armed, and keep a direct fire upon Issy.

NEW MITRAILLEUSE.

Bergeret is constructing small mitrailleuse capable of firing one hundred balls in succession.

MARINE CANNON.

Fort Issy is armed with marine cannon destined to bombard the ramparts.

A TRENCHING APPARATUS.

The Versailles troops are actively engaged in constructing trenching apparatus.

MAILLOT DESTROYED.

Porte Maillot was utterly destroyed.

OFFICERS ARRESTED.

Several captains on the staff of the War Office, whose names were found on the list of agents of the Imperial Secret Police, have been arrested. They were taken to the Prefecture this afternoon for identification by a staff officer, when the latter was arrested as a bad character.

IN THE CITY.

To-day the Turcos DeCommune mounted a guard at the Hotel DeVille. A double line of sentries have been placed across the street and all circulation is stopped.

THE ESCAPE OF ROSSEL.

General Rossel has escaped, and the Commune are greatly enraged at the loss of their prisoner. General Bergeret has been ordered to find him, and the authorities are telegraphing everywhere within the city, as it is supposed he is still in Paris. General Dombrowski declares Rossel is not a traitor.

DOMBROWSKI THREATENED.

Of the three gens d'armes discovered and arrested last night, one escaped, another has been killed, and the third is still a prisoner. He declares his intention to kill Dombrowski if he gets a chance.

TROOPS IN THE BOIS DE BOULOGNE.

VERSAILLES, May 13.—Thirty thousand men are in the Bois de Boulogne, sheltered by the trenches of the besiegers.

INSURGENT COLUMN BLOWN TO ATOMS.

Yesterday the insurgents attempted a sortie from Port Dauphine. The head of the column was allowed to advance a little, when suddenly twenty-eight shells burst among them, and the column was blown to atoms. The few remaining fled in terror.

WILL SOON SURRENDER.

Vanvres will soon surrender. The troops in the trenches are only one hundred metres from the fort, which has not fired a shot in twenty-four hours. Shells are fired from Mendon every minute, and the Viaduct Anteuil has been smashed to pieces. The troops are in excellent spirits and anxious for a fight. Gallepit's cavalry has been detached to clear the boulevards on the entry of the troops. Thirty ten-inch howitzers are in readiness for street fighting.

A GENERAL SEARCH.

PARIS, May 14.—A. M.—The Central Committee has ordered a general search, which is now progressing, for arms and persons amicable to the government.

EXPLOSIVE BULLETS.

Grousset, Federal Minister of Foreign Affairs, has issued a protest against the declaration of Thiers that the Commune has disregarded the provisions of the Convention of Geneva in regard to explosive bullets and retorts that the Versaillists have themselves been guilty of the infraction of the convention which they charge upon the Commune.

VERSAILLISTS REPULSED.

Communal accounts say an attempt of the Versailles forces to throw a bridge over the Seine has been repulsed.

EVACUATION.

The federals have evacuated the village of Issy.

VERSAILLISTS GAINING GROUND.

The Versaillists continue to gain ground in the direction of Maillot gate. Vanvres is still in possession of the federals.

NOTHING NEW.

VERSAILLES, May 14.—There is nothing new to report in the line of military operations. All was quiet during last night.

NOW READY.

Breaching batteries are now ready to open fire upon the enciente of Paris.

A CIRCULAR FROM THIERS.

A circular issued by Thiers says the troops have undertaken to open trenches on the Bois de Boulogne. Communication between Forts Montrouge and Vanvres has been cut. The Lyceum of the Prince Imperial, in the village of Vanvres, has been occupied, and operations are advancing at all points for the deliverance of Paris. The Versailles forces have occupied Fort Vanvres. The Federal garrison made their escape by a subterranean passage to Fort Montrouge. Fifty guns, eight mortars and a few prisoners fell into the hands of the Versaillists.

PRUSSIAN DOINGS.

It is reported that the Prussians have shot two of the inhabitants of the town Yoelote who had beaten a soldier.

DOMBROWSKI'S LIFE ATTEMPTED.

PARIS, May 13.—It is supposed that an attempt upon the life of General Dombrowski has been foiled. A stranger presented himself in front of headquarters in the Place Vendome and insisted upon seeing the General. Being refused access to the building, he quarreled with the sentinel, who wounded him with his bayonet in such a manner that death ensued. A loaded revolver was found upon his body.

REPLACED.

M. Brittioray replaces M. Deleschuze as Delegate Minister of War to the Commune.

SHOT.

Four members of the National Guard have been shot for treason.

ROSSEL AT WORK.

It is said that General Rossel is at Belleville arranging for the safety of the city in case the Versaillists should take the ramparts. Members of the Republican League have joined the Communists.

A LEVY IN MASS.

LONDON, May 13.—Special dispatches from Paris say a levy in mass is expected. Gen. La Cecilia becomes Generalissimo.

The Commune has made a demand upon the Bank of France for ten million francs.

The residence of Favre and others have been destroyed.

The furniture of the Palaces of the Tuileries, Louvre and Elysee are to be sold to-day.

The Column Vendome still stands.

REINFORCING.

A Versailles dispatch says that 50,000 troops are encamped at St. Germain and will join the forces of Gen. Douai in the grand attack upon Paris.

ENGLAND.

LOOKING AFTER THE COLONIES.

LONDON, May 13.—In the House of Commons last night a resolution was introduced by Mr. Macfee for the appointment of a select committee to investigate the relations of the colonies, both to the mother country and to each other, to ascertain in what manner they can be strengthened and bound in closer ties of friendship and loyalty to the empire, and to assure the colonies that they shall not suffer from any ministerial policy. It was opposed by Viscount Bury on the ground that the colonial relations are all in a satisfactory condition. General debate followed, after which the resolution was withdrawn by the mover.

THE TREATY OF WASHINGTON.

The *Times* to-day is convinced that the basis and essential provisions of the Treaty of Washington will certainly be adopted by the American Senate and therefore believes that the Treaty is virtually concluded. As for the Treaty itself it is the result of mutual concession and the *Times* finds in it nothing inconsistent with National honor in that England was ready to sacrifice, to restore amity between the two branches of the Anglo Saxon family.

DEATH OF AUBER.

LONDON, May 14.—A dispatch from Paris to-day reports the death of Auber, the musical composer, at the age of eighty-nine.

RUSSIA.

INSURGENTS AT WORK.

ST. PETERSBURG, May 12.—The insurgent tribes of Central Asia under the lead of Sadik have commenced hostilities against Russia.

WAR PREPARATIONS.

ST. PETERSBURG, May 14.—Active preparations are being made for a campaign against the Kheva, a portion of the Turkish people of which country commenced war against Russia.

GERMANY.

BISMARCK BANQUETTED.

BERLIN, May 13.—At mid-day Bismarck returned to the city, and was greeted at the station with cheers. Last night there was a great banquet at Frankfort, at which were present Bismarck, Rothschild and Arnim. The French diplomats in the city were absent, occupied in preparing for departure. Rothschild was elected President of the Commission.

SPAIN.

ADOPTED.

MADRID, May 12.—The Spanish Senate has adopted by a vote of 85 to 23 an address in reply to the speech from the throne.

TURKEY.

A NEW AMBASSADOR.

CONSTANTINOPLE, May 12.—The new French Ambassador M. Melchier Vagne, has arrived in this city.

FINANCIAL AND COMMERCIAL.

LONDON, May 13—3.30 P. M.—Consols 93⅝; bonds firm; 5-20's '62, 90½; do. '65, 90¾; do. '67, 92⅝; 10-40's, 80⅞.

ANTWERP, May 13.—Petroleum 49c.

LIVERPOOL, May 13.—Cotton buoyant; middling upland 7⅝@7⅞d. Provisions unchanged; pork 64s; beef 106s 6d; lard 51s 9d; cheese 66s 6d.

NEW YORK.

To be Dined—Royal Visitors—Buying up Erie—The Prize Ring—A Sacrilegious Lunatic.

BUYING UP ERIE.

NEW YORK, May 13, 1871.

The *Sun* of this morning says a rumor abounds in financial circles that Commodore Vanderbilt has concluded a bargain to buy out the interest of Messrs. Jay Gould and Jas. Fisk, Jr., and their friends, in the Erie Railway. It is said that he is to take all their stock at the market price, and pay them a bonus of $3,000,000. The arrangement has not yet been consummated, but it is believed these are the terms agreed upon.

NEW YORK, May 14, 1871.

TO BE DINED.

Baron Gerolt, the retiring Prussian Minister, will receive a public dinner in this city tomorrow, given by a large number of prominent citizens, without distinction of party.

A SACRILEGIOUS LUNATIC.

An insane man entered the Church of St. Vincent Ferrer during Mass this evening, created a disturbance, stabbed a man in the forehead, and then defended himself with an axe until arrested by the police. The priest had to leave the altar to save the man from being hanged by the congregation.

ROYAL VISITORS.

Emperor Pedro the Second and the Empress Theresa, of Brazil, will arrive in this country next October or soon after, and remain two months.

THE PRIZE RING.

Coburn challenges Mace to fight for $10,000 to-morrow or Tuesday within fifty miles of this city. Tom Allen also offers to fight Coburn for $5,000 or O'Baldwin for $1,000 a side.

ARRIVED.

Governor Sosa, of Panama, arrived in this city yesterday to purchase arms and ammunition of war for the Corresso Government.

SAN FRANCISCO.

Japanese News.

SAN FRANCISCO, May 23.—Arrived this morning, the steamer Great Republic, from China and Japan.

Three great clans in Japan have united under the leadership of Prince Satsuma to maintain the Mikado in full power against the Tycoon and party. Satsuma is now virtually dictator. He sent his father to Jeddo to take possession of the Government in his name.

Lemuel Lyon, United States Consul at Yokohama, died there of softening of the brain.

A Japanese mint on the American plan at Osaka and a naval arsenal at Yokoska have been inaugurated with great ceremonies. The postal system is being inaugurated, commencing with a route from Kisto to Jeddo.

RUNNING.

SAN FRANCISCO, May 14.—Trains are running from Portland, Oregon, to Halsey, one hundred miles.

THE INDIANS.

A forage train was attacked by Apaches near Camp Verde, Arizona. One Mexican was killed and another wounded; eighty-seven cattle were captured.

On the fifth inst. Lieutenant H. B. Cushing and twenty men of the Third Cavalry were routed by Cacheis, the noted Apache Chief, with one hundred and fifty warriors, on the Whitestone Mountains, southeast of Tucson. Cushing, who was one of the most efficient officers in the Territory, and Wm. H. Simpson, a soldier, were killed. The remainder were compelled to retreat to camp Crittenden. Captains Sanwood and Moore, with forty men each, gave pursuit. The savages are committing numerous murders.

ALBANY.

Correction.

ALBANY, May 13.—A dispatch from New York on Friday night purporting to give the decision of the general term in the case of the people against the Albany and Susquehanna Rail Road Company and others was incorrect. The following is the decision as it appears in the official list of decisions: So much of the judgment as restrains further prosecution of the actions mentioned in the complaint and requires them to be discontinued with costs, and so much of said judgment as awards the costs in favor of the Ramsey board and eight other defendants against the Fisk board and so much as appoints a referee to ascertain how much and to whom an extra allowance should be made, is revised, and the rest of the judgment is approved without costs with appeal to either party.

The decision of Judge Smith, so far as it holds that the pretended election of the Fisk directors in September, 1869, was fraudulent, illegal and void, that the Ramsey Board was legally elected and that the Groesbeck stock and stock subscribed for by Ramsey and others and on which ten per cent. was paid were valid, is not reversed, but only the points upon which it is reversed relate to costs and the enjoining and discontinuance of certain actions pending when the suit of the people was brought. The election of 1870 was not contested, and the decision does not in any way affect it.

CINCINNATI

A Defaulter.

CINCINNATI, May 13.—H. H. Guieon, defaulting book-keeper of the firm of Meis & Meyer to the amount of $3,500, returned to the city yesterday to effect a compromise, but was immediately arrested.

FOUND DROWNED.

The body of an unknown man was found in the river below the city this morning. No inquest yet.

DEAD.

C. S. Dyer, a well known business man, died yesterday afternoon.

DETROIT.

Appointed.

DETROIT, May 14.—A. H. Reese, of Jackson has been appointed Superintendent of the Detroit, Lansing and Lake Michigan railroad, with R. Laughlin assistant. This road is being pushed to completion with all the energy that characterizes Mr. Joy's railway undertakings. Iron is being laid from Detroit west, and Lansing east at the rate of a mile per day.

CHICAGO.

Baptist Anniversary.

CHICAGO, May 13.—The Baptist anniversaries commence here next week. The following is the programme—American Bible Union 17th and 18th. Baptist Historical Society 18th. Bible and Publication Society 19th and 22d. American Baptist home mission society 20th and 2nd. American Baptist Missionary Union 22ad and 23d. Western Baptist Educational convention 24th and 25th.

TAX.

Our Common Council has ordered that the tax levied on the grave of Senator Douglass be paid out of the general fund and the sale advertised by the Collector be discontinued.

MORE CHENEY.

Rev. J. Cotton Smith of New York will preach for Mr. Cheney to-morrow, and it is announced that upon subsequent Sabbaths the tyngs of New York, Rev. Mr. Sabine and other prominent eastern clergymen will occupy Mr. Cheney's pulpit.

LADIES COLLEGE.

The ladies of Evanston, a few miles from here have taken hold of the task of establishing at that place a ladies college of the highest order, and have, with that object, formed an Educational Association, with Mrs. T. H. Hoge as president. Under the auspices of this Association it is proposed to hold on next fourth of July, a grand celebration, at which time the corner stone of the new building will be laid. Orations will be pronounced by some of our most celebrated countrymen and a banquet will be served. The circular making this announcement says: "Notice is hereby given of the preemption of the 4th of July in the interest of the girls of the northwest."

MURDER CASE.

A letter has been received here from Detective Dixon, who was sent to Germany for Ziegenmeyer the alleged murderer of Gumbleton. Dixon states that Ziegenmeyer claimed to be a German citizen, his naturalization papers having been obtained by fraud. After some legal controversy, however, Ziegenmeyer was given up. He was found in possession of $8,000, which he said he obtained by speculations in Illinois Central stock. The prisoner is expected to reach here about next week.

SPRINGFIELD.

The Lincoln Monument.

SPRINGFIELD, Ill., May 14.—The National Lincoln Monument, now being erected at Oakridge Cemetery, near this city, will be completed about the first of July. The Monument Association, of which ex-Governor Oglesby is President, held a meeting yesterday and decided to celebrate the occasion with appropriate services. Besides the inauguration of the bronze statue of Mr. Lincoln, just cast from the model of Meade, the celebrated sculptor. The remains of the murdered President will be transferred to the new vault in the base of the monument. It is the intention to make the occasion one of national interest and it is probable that the President and Vice-President of the United States, the heads of departments, the Supreme Courts, Senators and Representatives in Congress, and Governors, and members of the Illinois Legislature and other distinguished persons will be invited to be present and participate in the ceremonies. A commemorative oration will be delivered on the occasion and a committee have been appointed to select the orator. The monument is not one of the largest in the country, but it is magnificent in its proportions and imposing in its appearance. The time for the ceremonies has not been definitely fixed, but it will be announced in due time.

AUSTRALIA.

Interesting News.

SYDNEY, April, 1, via San Francisco, May 12.

A severe earthquake was felt at Melbourne on April 1st.

A rumor of a filibustering expedition from some American port was communicated by the Secretary of State for Colemers, and caused great excitement in Australia. A bill was introduced in Parliament for an increased military force, fortifications, and for other precautionary measures.

Mr. Partincourt, of New South Wales, and Sir James Martin, promised a deputation from the Chamber of Commerce yesterday to submit a plan to their colleagues for the subsidising of a mail service to Europe, via Fiji, Honolulu and San Francisco, and to invite the co-operation of the other colonies interested.

NEW ORLEANS.

Hanged.

NEW ORLEANS, May 13.—Vincent Bayoune and Petro Abriel were hanged at 11 o'clock this morning for murdering a sailor about a year ago. They robbed him and threw his body in the river. Both men behaved with coolness to the last. After the religious rites had been performed they were pinioned. When Bayoune stepped on the scaffold he looked at the crowd and ejaculated "Carajo" and spit upon them. The execution took place in the Parish prison yard, and a large crowd gathered around the prison. The Spanish, English, Belgian and French Consuls petitioned the Governor for commutation of the sentence but acting Governor Dunn refused to grant it.

ILLINOIS.

Counterfeiter Arrested.

FULTON, May 12.—A young man named John Shannon *alias* Sherman was arrested by Chief Operative Lanergan of the United States Secret Service, charged with being a dealer in counterfeits. Several thousand dollars in counterfeit in ten dollar bills of the Farmers National Bank of Poughkeepsie, New York, were found in his possession. It is understood that the money is a part of that belonging to the notorious William Shannon, the father of the prisoner, who was arrested in Chicago a week ago by Chief Lanergan, and that it was brought by the elder Shannon from the East. The counterfeit is quite a dangerous one, and it is to be guarded against.

TOLEDO.

Death of a Well Known Gentleman.

TOLEDO, May 13.—John Greiner, of Columbus, Ohio, Ex-Governor of New Mexico and author of the famous "Log Cabin" songs of 1840, died of paralysis at the Oliver House in this city at five o'clock this morning. He was a Representative to the Grand Lodge of Odd Fellows of Ohio, which has just closed its session here. His remains have been taken to Columbus for interment.

A Frontier Scene.

Rev. Sheldon Jackson, writing to the *Evangelist*, describes a church scene in Evanston, Wyoming Territory:

"What's the show, stranger?" "Preaching to-night at the hall. Will you come?" "You bet, I will," was the question and response at one of the saloons.

At half-past seven o'clock a hall under the roof of a rough, unplaned frame building and over a whisky and gambling saloon, was lighted up and the people began to gather; ladies from the Pacific coast and from the Atlantic, intelligent and self-reliant pioneers from the stores, gamblers from the saloons, and Mormons, until the room was full and more than full. Some went away unable to get in. The services were as usual, except that the sheriff was called out to stop a fight among the roughs in the saloon below.

Much interest was manifested by those present in securing regular preaching. Arrangements were made to have that indefatigable worker and successful missionary, the Rev. F. L. Arnold, of Laramie, Wyoming Territory, give them a semi-monthly service. This extends his parish a distance of five hundred miles along the Pacific Railroad. The round trip to Evanston and return being farther than from New York to Chicago.

Evanston, 7,000 feet above the water, is 953 miles east of San Francisco, 2,352 miles west of New York, and two miles east of the boundary line between Utah and Wyoming.

Through the Mont Cenis Tunnel.

A traveler who lately passed through the Mont Cenis Tunnel, coming from Italy, furnishes the *Mont Blanc*, of Annecy, (Savoy) with the following particulars: He passed from Bardonneche to the point of junction of the two galleries in less than a quarter of an hour, in a train employed in removing the materials excavated. The way is not yet constructed in its whole width for about a hundred yards in the centre, where blasting operations are still going on. But with that exception the double line is completed, and nothing more remains to be done but to replace the temporary rails by permanent ones. The middle of the excavation forms a culminating point, a slope of two in a hundred have been provided on each side for drainage, so that it is consequently from 230 to 250 meters above the level of the entrances.

The temperature is still very high, but that circumstance is accounted for by the necessity of still keeping closed the gates constructed for the requirements of the service, and which are only opened after an explosion, to let the smoke escape. The fact has been remarked that when the door is thrown open the current of air is rapidly established, and always in the direction of France to Italy. No one can pass over the line without a permission from the principal engineers, in order not to impede the progress of the works, which are expected to be completed in June next, and the inauguration to take place in July.

AT Osage, Iowa, there was a little girl two years old, whose ears are perfectly sealed up, the external ear seeming to be doubled forward. An effort to remove the deformity by a surgical operation failed, as no openings were found, the ears being closed up perfectly, not even admitting a fine probe. The child hears some, probably from the fact that the internal ear is perfect, and strong vibrations are transmitted through the mouth.

GENERALITIES.

A CHICAGO whiskey shop is named "Gough's Retreat."

MR. HENRY BERGH was re-elected President of the Society for the Prevention of Cruelty to Animals in New York.

HAND-ORGAN grinders make from fifteen to twenty dollars a day in New London. The liberality of New London people to organ grinders is proverbial.

MAT BAGLEY, living three miles back of Caledonia, Ill., while cutting a sapling on Thursday, accidentally cut his little boy's feet off, above the ankle-joint.

A NUMBER of negro boys in New Orleans had a fight on the streets last Monday night. One of them, named Joseph Norris, received some blows with a club over the head. It is supposed that the injuries are fatal, as lock-jaw has set in.

THE Canadian papers take a deep interest in the treaty. One of the best of them is the Montreal *Daily News*, and it is so well informed as to say that a recent leader in the New York *World* "is a challenge to General Grant, now on a stumping tour."

AT THE meeting of the Erie and Crawford county Conferees, on the 9th inst., George K. Anderson was nominated for Senatorial delegate to the Convention to be held in Harrisburg on the 17th. Gen. B. B. McCreery of Erie was endorsed as candidate for Auditor General.

THE Henderson (Texas) *Times* says: "Farmers are getting up with their work, corn crops look well, cotton generally planted and upstand good. Vegetables are flourishing, potatoes and peas getting plentiful. Fruits of all kinds more forward by two weeks than usual."

BURLINGTON, VT., can boast of the largest planing mill in the world. The lumber yards, docks, sheds, mills, etc., of the firm cover an area of nearly fifty acres, and in this area there about seven miles of plank road. To carry on this establishment from four to five hundred men and boys are employed.

A NORFOLK journal reports that recently fourteen thousand quarts of strawberries were shipped as the first fruits of one picking of a patch of one hundred acres in the vicinity of that city. A yield of this magnitude, it is stated, shows that more can be made from one acre in strawberries that from ten in corn.

THE trustees of the Howard University, Washington, D. C., have established a professorship of medicine in that institution to be filled by a woman, and have elected as the first incumbent Mrs. Bella C. Barrows, who it is stated, enjoys a high reputation as a surgeon, and is particularly skilful in the treatment of diseases of the eye.

JUDGE BALLARD, of the United States Court at Louisville, having decided that negroes cannot legally be excluded from street cars, an immense commotion has resulted. Colored people will get into the cars now, and so surely as they do, those cars immediately run off the track and do not get on again until the colored people depart. Serious trouble may possibly result.

THE New Orleans Republican of May 9 says that Lake Pontchartrain is now entirely filled with muddy river water. The yellow color extends out into the gulf, 40 miles to the east and southeast, running out with considerable force. All the bayous leading from the lake look like the Mississippi, and Lake Borgne is pretty well tinged. By this some estimate can be formed of the extent of the great crevasse.

A CORK paper expresses astonishment at the continued drain of Irish population, which, it says, is going on as steadily now as in the most disturbed years. Queenstown is already crowded with emigrants, although the season is only commenced, and it is expected that before summer the departures from that port will average two thousand. The people come principally from Clare, Tipperary, Meath, Westmeath and King's county.

THE New York *Tribune* says: Owing to the high winds that prevailed on Monday last, a large raft was blown upon the west shore of the channel in the Delaware river, at Narrowsbugh. Sullivan county, lodging in such a manner as to obstruct the passage. Other rafts coming down, in a short time over three hundred were piled up. Several were sunk, and others broken to pieces. It is estimated that $50,000 worth of lumber was lost outright. All transportation of lumber above Narrowsburgh, has been checked.

WE do not remember just what churchyard the following epitaph is to be found in.

Here lies I and my three daughters:
Killed by drinking of the Cheltenham waters:
If we'd only stuck to Pier' Dannals & Co.'s Cream Ale.
We might a been still hearty an' hale.

FISTULA AND PILES cured without caustic or the knife, at Dr. Keyser's office for chronic diseases, 167 Liberty street.

NEW ADVERTISEMENTS.

GREAT
National Loan.

New Five Per Cent. Bonds of the United States.

The Treasury Department is now able to promise that the registered Certificates of Stock and a good part of the Coupon Bonds of the New Loan of the United States, bearing Five per cent. Interest, payable quarterly in Gold, will be ready for delivery early in the present month. The Subscriptions to the Loan now amount to $62,000,000, and it is expected that the Subscriptions and Sales will progress more rapidly when the Certificates and Bonds are ready for market abroad as well as at home. The whole sum of Five per Cents offered to the public generally, and to the holders of United States 5-20 Bonds, without qualification, is $200,000,000. When this amount to which preference is thus given, is taken up, the remainder of the Five per Cents, $300,000,000, embraced in the New Loan of July 14, 1870, for refunding the Public Debt, will be offered in connection with $300,000,000 of Four and one-half per Cents, and any part of $700,000,000 of Four per Cents, the one running fifteen years and the other thirty years.

The following is a copy of the New Five per Cent Bond, under and pursuant to the New Loan Act of Congress:

FORM OF FIVE PER CENT. BOND.

INTEREST | FUNDED LOAN OF 1881 | 5 PER CENT.

UNITED STATES OF AMERICA
ARE INDEBTED TO THE BEARER IN THE SUM OF
..........DOLLARS.

THIS BOND is issued in accordance with the provisions of an Act of Congress entitled "An Act to authorize the refunding of the National Debt," approved July 14, 1870, amended by an Act approved January 20, 1871, and is redeemable at the pleasure of the United States, after the first day of May, A. D., 1881, in Coin of the standard value of the United States on said July 14, 1870, with interest in such Coin, from the date of the date hereof, at the rate of FIVE PER CENTUM per annum, payable quarterly on the first days of February, May, August and November, in each year. The principal and interest are exempt from the payment of all Taxes or Duties of the United States, as well as from taxation in any form, by or under State, municipal, or local authority.

WASHINGTON..........18

Entered..........Recorded..........

Register of the Treasury.

Registered Bonds will be issued of the denomination of $50, $100, $500, $1,000, $5,000 and $10,000, and coupon bonds of each denomination except the last two. The interest will be payable in the United States, at the office of the Treasurer, any Assistant Treasurer, or designated depository of the Government, quarterly, on the first days February, May, August, and November, in each year.

The interest on the Registered Stock of this Loan, it is determined by the Treasury Department, will be paid as conveniently to the holder as on the Coupon Stock, and personal attendance, or attendance by proxy, at the Treasury, to draw and receipt for the interest will be dispensed with, *whenever the check of the United States Treasurer, mailed punctually to the address and order of each holder, on or before every quarter-day, is preferred to such attendance.* This check, payable in Gold Coin at the Treasury in New York, (or such other office as the Stock is registered at,) will be negotiable or collectable on the indorsement of the owner or owners of the Stock. In pursuance of this arrangement, the subscribers to, or purchasers of, the Stock in its registered form, (which is a complete protection against theft or other losses incident to Coupon Bonds payable to Bearer) are advised to give the Post-office address in full, and to notify of any change in the address between quarter days.

The whole proceeds of the new loan will be applied to the payment or redemption and cancellation of the 5-20 years six per cent. bonds, and, in addition to these proceeds, the 5-20s are now being reduced by purchase at the rate of $10,000,000 per month.

The entire effect, therefore, of the New Loan in connection with the existing Sinking Fund process of the Treasury, is to reduce both Principal and Interest of the Public Debt of the United States. *The Loan creates no additional supply of Government Stocks*, while the application of the surplus revenues derived in Gold from Customs is constantly lessening, as it has been doing for two years past, the Funded Stocks bearing six per cent. Gold Interest.

The 1st of May schedule of the Public Debt which has just been published by the Secretary of the Treasury, shows a reduction in these Stocks since the April schedule of $12,215,700, and a further lessening of the yearly interest charge thereon of $732,942. This leaves the total yearly interest charge in Gold $111,982,634. In the same month the Treasury paid and canceled $2,470,000 of the Three per Cent. Currency Debt, reducing the whole of this debt bearing interest to $51,023,000, and the yearly interest charge thereon to $1,537,470.

The proposed further reduction of the annual interest charge upon the Public Debt by refunding is as follows:

By exchange of $500,000,500 United States six per cents for new five per cents of 1861	$5,000,000
By exchange of $300,000,000 United States six per cents for four and a half per cents of 1861	4,500,000
By exchange of $700,000,000 United States six per cents for four per cents of 1901	14,000,000
Total saving per annum by refunding	$23,500,000

The large and rapid accumulation in the last few years of private capital now retired from active business, and of the cash Savings and Life Insurance premiums deposited with or intrusted to the provident institutions of the country—all seeking the most undoubted security, pledged to be kept free of all taxes, under national or local authority, and content, provided this object be assured, with moderate rate of interest—will, no doubt, ultimately absorb so much of these New Stocks as may not be taken in voluntary conversion of United States 5-20s, or marketed abroad.

C. C. NORVELL,
In charge of U. S. Loan Advertising.

TREASURY OFFICE, NEW YORK, May 2, 1871.

LOUISVILLE
CEMENT.
The Best--The Cheapest.

The Cement has acquired the reputation as the first in the country in hydraulic strength and uniform reliability.

It is now in general use from the lakes to the Gulf, most of the public works in the West and South being constructed with it.

The mills at Louisville having been enlarged and improved, can supply any demand, and though the Cement has always, for 30 years brought higher prices than competing brands, it is from this time the determination of the manufacturers, in order to largely increase the sale and extend the use of their Cement, to furnish it in the principal markets at prices which make it the most available and economical for all classes of work.

The large capacity of this Cement for taking sand renders it much the cheapest that can be used for buildings of any kind.

At the reduced prices in Pittsburgh its cost is not much above common lime, which makes it unquestionably to the interest of owners and builders that the foundation of every good house should be laid in this Cement.

A large stock of fresh Cement has just been received by barges from Louisville, and is offered at greatly reduced prices by the following dealers:

LAING & McKALLIP, 347 Liberty street.
J. B. CANFIELD, 141 First avenue.
W. W. WALLACE, 319 Liberty street

MWS

SCHOOL
AND
SHOOL BUILDING TAXES.

Notice is hereby given to the taxpayers of the City of Allegheny, that the duplicates for the nine wards comprising the Allegheny School District, are now ready at the office of the Receiver, No. 57 North Diamond street.

Attention is directed to the following section of the law:

SECTION 24. That all taxes lawfully levied by the Controller of said district for school purposes, and all taxes so levied by the Directors of the several wards in said district for building purposes, payable in said district, shall be payable at the office of the Receiver, and said Receiver shall make allowance to all payers of taxes aforesaid, who shall pay the same in the year for which they are assessed, as follows, namely:

Five per centum if paid on or before the first of July. Four per centum if paid on or before the first day of August. Two per centum if paid on or before the first day of September. If paid after the first day of September, and on or before the first day of October, no deduction shall be made. If paid after the first day of October, and on or before the first day of November an addition of five per centum shall be added to, and payable on the same.

Office hours from 8 to 12 A. M., and from 1½ to 6 P. M.

MAY 13, 1871. C. W. BENNEY, Receiver. my13:s23

THE DAILY GAZETTE.

OFFICIAL PAPER
Of Pittsburgh, Allegheny City and Allegheny County.

GAZETTE BUILDING:
Corner of Sixth Avenue and Smithfield Street.

MONDAY, MAY 15, 1871.

HEADQUARTERS
REPUBLICAN STATE CENTRAL COMMITTEE
Of Pennsylvania,
No. 1105 Chestnut Street,
PHILADELPHIA, January 23, 1871.

In pursuance of the Resolution of the Republican State Central Committee, adopted at Altoona, August 16, 1870, a State Convention, composed of delegates from each Senatorial and Representative District in the number to which each district is entitled in the Legislature, will meet in the Hall of the House of Representatives, at Harrisburg, at 12 o'clock, noon, on the 17th DAY of MAY, A. D. 1871, to nominate candidates for Auditor General and Surveyor General, and to take action upon the question of Constitutional Reform, and for the transaction of such other business as may be brought before it.

MAHLON H. DICKINSON,
Chairman Executive Committee of State Central Committee.

GEORGE W. HAMERSLY,
M. S. QUAY,
JAMES W. M. NEWLIN, } Secretaries. ja27

BONDS at Frankfort, 97½.

PETROLEUM at Antwerp, 49.

GOLD closed in New York on Saturday at 111⅜@111½.

THE Republican County Convention of Venango county met at Franklin on Monday last. The following ticket was placed in nomination: Assembly, J. D. McJunkin; Associate Judge, R. S. McCormick; County Treasurer, N. B. Riddle; Sheriff, C. S Marks; District Attorney, James H. Smith; Commissioner, James P. Riddle; Auditor, W. R. Gillilend; Coroner, J. S. Hooten.

THE SENATE need not worry itself at this hour regarding how or in what manner the reporters gained hold of the text of the Washington treaty and telegraphed it to their papers. No ordinary precaution will prevent such documents of importance from becoming made known to the world, and it would just be as well for our Senators to acknowledge the fact and have done with the farce of arraigning enterprising Bohemians for the trifling offence of stealing news for the people.

THE COMPLETE omision of the Emperor of Russia from all part or voice in the numerous arbitrations proposed by the new treaty is very conspicuous. The Czar has frequently expressed his sympathy and regard in many respects for the United States, and for American institutions in general, and may therefore have been objected to by the British members of the High Commission. But on the contrary, the Czar as the head of one of the most important of the great powers, might, we think, have commanded so much consideration as to have prevented the singularly prominent absence of his name, when the good offices of every other leading civilized power, with the exception of the too unstable and preoccupied France, have been claimed. It would be interesting to know if this omision has a history, and, if so, what that history is.

OF LATE a spirit of emulation has taken possession of our people and leads them in a proper direction in the way of trying to excel each other in the grandeur and completeness of newly erected buildings devoted to trade and other purposes. Inside of the past ten years our city, and Allegheny too, has been beautiful and adorned by the erection of royal palaces devoted to trade and business purposes. Conspicuous among these stands the First National Bank Building on the corner of Fifth avenue and Wood street. It is a credit to our city and one of our principal architectural ornamentations to which with pride we can call the attention of the stranger. To say that it is the finest, most elegantly fitted and furnished building in the United States devoted to banking purposes is but to assert the conviction of every person who has made observation in travel. Its cost was enormous but the managers of the "First National" rank first among our enterprising and progressive people, and in erecting such an elegant monument in our business centre they but returned compliment to their army of patrons through whose great prosperity has been enjoyed and to whose favors is indebted the fact that no other institution operating under our national system of banking enjoys larger public confidence or holds firmer place in estimation and credit at home or abroad.

HON. MILES S. HUMPHREYS.

"We notice by the Pittsburgh papers an authentic announcement that Miles Humphreys has withdrawn from the contest for Auditor General, and announces himself as a candidate for the State Senate from the Allegheny district.

"His career, as a member of the House of Representatives for the last three years, has established Mr. Humphreys' ability as a legislator, and we congratulate him on the judgment which induced him to withdraw as a candidate for Auditor General and take the field for Senator.

"Energetic, bold, quick in the comprehension of parliamentary business, and of unequaled integrity, we predict for Mr. Humphreys, should he reach the Senate, a career of honor to himself and benefit to his constituents."

The above we find in the Harrisburg *State Journal*. We are informed by Mr. Humphreys himself that such is his decision. His private affairs will not permit him to accept a position, if it should be tendered him on the State ticket at this time, but his friends insist on his nomination for the Senatorship. Mr. H. is willing to give his time and influence for the success of the State ticket, and if needed will canvass the State.

THE WASHINGTON TREATY.

The text of the Washington Treaty, emanating from the labor and deliberations of the Joint High Commission, has been spread before the reading people of the United States and England, and public opinion in both countries on the merits and demerits of the international document is now undergoing the process of formation, and will soon find expression. The treaty is one of the most important that ever claimed the calm consideration and thoughtful action of our diplomats and statesmen, for it aims to dispose of perplexing problems that have arisen to disturb the harmony of the relationship between two of the great nations of the earth, points out a plan for the amicable adjustment of present difficulties, and for the prevention, in the future, of the troubles that have occurred in the past, resulting from vague, misconstrued and conflicting interpretations of national neutrality and the policy to be pursued by the country at peace, towards that at war. Like all documents of a similar character, wherein a variety of topics are embraced, differences of opinion cannot fail to exist as to the wisdom, policy or prudence of ratifying the document entire. It certainly should not be disposed of without grave forethought and studied consideration. We must not forget, in the discussion of the treaty, that we are not the only people a party in it, but must remember that England and her citizens are as immediately concerned as ourselves, and have equal rights to guard and protect as a nation. Our national pride could not, even by the waging of war, have wrung from Great Britain a more graceful apology for her conduct towards us during the rebellion than that so generously worded in Article 1st, bearing on the adjustment of the Alabama claims. The wrong inflicted upon our Government is acknowledged, and no half expressed regret follows from haughty England. More than such apology is offered in the acceptance by England of the obligations due our people from her Treasury for the losses sustained through the depredations of the Alabama and other vessels. The concession of the justice and legality of these claims [Article 6] as contained in the wording of the treaty, reflects the fact that the Commissioners representing the English Government were thoroughly earnest in their desires to amicably settle the perplexing questions that fell under their deliberations. They re-assert what has by their Government been consistently maintained, that the rules of international law under the violation of which the Alabama claims have origin, were not in existence, but in a spirit of conciliation the point is waived, and the rules will be hereafter recognized. The counter-claims against the United States Government brought by British subjects as an off-set, so far as they go, against the Alabama bill of damages, were doubtless admitted by our representatives in that shape, in order to gain other advantages. The remaining articles of the treaty develop an honorable and friendly international spirit, and altogether the document is a credit to the framers and will in all probability receive the prompt endorsement and ratification of both governments interested.

BLUNDERS AND BULLS.

Notwithstanding the progress we are making in the walks of literature, there are few, even in these days of enlightenment, who speak and write the English language correctly. Indeed, we may safely say there is no speaker or writer but occasionally commits a blunder, sometimes through carelessness, but oftener through ignorance. Blunders are not confined to the daily press; they are often found in the stately review and elaborate works on history, science and philosophy. In the former they are more excusable, because there is little time afforded to construct, polish and remodel sentences, as almost everything for the daily journal has to be written *currente calamo*. But there is much room for improvement, both in the daily paper and the ponderous tomes of authors, who are deservedly ranked among the learned. There is much carelessness in the best journals and most elaborate works, in the use of language. We use stereotyped expressions for years at the inaccuracy of which we are amazed, when we subject them to a grammatical analysis, and feel not a little ashamed of ourselves that we did not detect our error sooner. Even those who have published critical and valuable works on the blemishes and defects of our current English literature have been convicted of gross violations of grammatical rules. There is no time when we are more apt to commit errors in diction than when we attempt to criticise others. Even Dean Alford himself, who has made learned pleas for the "Queen's English," is not above criticism. Babington Macauley, who often paced the floors of his study for hours together before he could frame a sentence to please him, has fallen into errors which any child in the intermediate department of our common schools can easily expose.

One of the most common errors in speaking or writing, is the use of a plural nominative in connection with a singular verb, or a singular nominative with a plural verb. This error in concord occurs in the following sentence taken from Macaulay: "The poetry and eloquence of the Augustan age *was* assiduously studied."

Another common error, of which some may consider the caption to this article an illustration, although we do not think it is, critically speaking, is the use of redundant or synonymous terms. Sheridan evidently commits this error in the following: "The *chief* mistakes made by the Irish in pronouncing English, *lie for the most part*, &c.

But without taking time to classify, let us quote at random a few specimens of the blunders and bulls committed by authors of acknowledged ability and profound erudition. Dr. Johnson is responsible for the following:

"Turn from the glittering bribe your scornful eye,
Nor sell for gold what *gold can never buy*."

The following mingling of singulars and plurals and ungrammatical construction, which will be found in Allison, is characteristic:

"He thus succeeded in at last combating the revolution with *its* own weapons, and at the same time detaching from *them* the moral weakness under which *it* labored. He met it with *its* own forces, but he resisted *their* efforts in a nobler principle.

Hallam was guilty of the following incongruity: "No one had exhibited the structure of the *human* kidneys, Vesalius having only examined *them in dogs*."

Our readers are familiar with the strange exclamation to which Sir Boyle Roche once gave utterance: "I don't see, Mr. Speaker, why we should put ourselves out of the way to serve posterity. What has posterity ever done for us?" The exclamation of Sir Boyle produced convulsive laughter, which caused him to give the following amusing explanation: "By *posterity*, sir, I do not mean our *ancestors*, but those who are to come immediately after them."

The latest "bull" which has come to our notice occurs in the autobiography of that distinguished jurist and parliamentarian, Lord Brougham. It is well known that Brougham's father was engaged to be married to a Miss Whelpdale, who died the day before that appointed for the celebration of the nuptials. Subsequently he married Miss E. Syme, who gave birth to several children, of whom Lord Brougham was the eldest. Referring to the circumstance of his father's marriage, Brougham says:

"It has often struck me that what seemed to my father, an irretrievable calamity may have been the means of saving me from obscurity. *If Mary Whelpdale had been my mother*, she no doubt would have enriched the Saxon blood I derived from my father; but I should have remained in the state of respectable mediocrity which seems to have characterized my many ancestors, none of whom, so far as I have been able to discover, were ever remarkable for any thing."

In the above extract Lord Brougham takes it for granted he would have come into existence and have had the same personal identity if his father had married Miss Whelpdale, or as we may suppose, "any other woman."

Daniel O'Connell never saw an act of Parliament "through which he could not drive a coach and six." There are few productions, however learned their authors, through which the plow-share of Lindley Murray could not be driven with disastrous effect.

Our Democratic friends have committed many serious political blunders during the past twenty or twenty-five years, and as yet they do not seem to be satisfied. They manifest a willingness still to assist the Southern disloyalists in their endeavors to retrieve the "lost cause," and therefore wink at the iniquities and outrages of Ku Kluxism. Their support of the South, in its attempt to perpetuate human bondage, resulted in their loss of political power and control. Their present course, if pursued, will greatly contribute to the strengthening of the cause of Republicanism. We will no doubt have occasion at no very distant day to enumerate the blunders of the Democracy.

THAT RULING.

EDITORS GAZETTE: The position taken by Judge Stowe recently in the Newell mayhem case appears to be fraught with consequences, the practical tendency of which is rather to sustain and encourage ruffianism, than to assist in the maintenance of peace and good order. Here is an officer, one of the guardians of the peace, whose duty it is to suppress disturbances and preserve order, who in passing along one of our thoroughfares sees such a disturbances about to be created—created by a character notorious in the community for such breaches—and like a good public servant he interposes to prevent it. Immediately the quarrel is transferred to him. The vilest epithets known to a vile nature are heaped upon him. He is dared to exercise his office, and threats are even made against his own safety.

Interpreting his duty—as we think aright—he accordingly arrests him, such as one might only expect from a beast. Bad as this is, to our mind the lack of appreciation of his services by that power whose servant he is, appears the most grievous feature of the whole affair. Unfortunately for officer Johnson he had not yet gone on duty, and according to the ruling of his honor had no authority to make an arrest. This may be law, but let us see how the practical application of this law in a somewhat similar case will operate. I am a merchant having clerks ander my employ. Their duty is to see that whatever pertains to my interest is furthered and whatever is prejudicial to it, prevented. I expect this of them whether in the store or out of it, but according to Judge Stowe I have no claim on them after six o'clock. Therefore if after they have stepped out and whilst standing before the door, along comes some thief who should attempt to force an entrance, they have no right to resist him. They are off duty. What employer in the city would tolerate such an employee and what employer is there, who if the thief were succesfully resisted, and resisted to the personal injury of his employee, but would reward him, or at least make some expression of appreciation for such zeal in his behalf.

Now the cases seem to me similar. Here is the city as employer, the officer as employee, his duty is to see that whatever tends to destroy the peace and disturb the interests of his employee is abated, and the employer expects it of him whether on duty or not, but, while in the strict *letter* of the law, he may not have the authority with him always, yet in the *spirit* this authority would seem to be reasonably implied in so clear a case as this. It seems to us that this delicate discrimination betwixt the letter and the spirit, should be avoided in the instructions to our officers. For on one hand if they are to understand that their obligation is only comprised in those hours in which they are on duty. Then the very moment they are off their obligation ceases, no matter what may occur in the interval, before the other comes on. On the other hand by such rulings, they will be led to stop and determine whether they will be sustained in what they are about to undertake, which delay would act disastrously in most cases, either giving the offender ample time to make his escape, or else producing such confusion in the mind of the officer as to what was his duty, that being unable to decide, the culprit would be allowed to go unmolested. His Honor held further that the "proper remedy was recourse to the law, the same afforded to every citizen." But supposing officer Johnston had gone in quest of another to have the arrest made, the quarrel which he had interposed to prevent would never have been renewed immediately, besides such action would have conveyed to the minds of Newell and the by-standers the impression that he was afraid to attempt the arrest alone. The prompt and decisive action of Mayor Brush is especially gratifying. The order which characterizes our community is due in no small degree to his energetic and unflinching determination to keep in check that spirit of rowdyism of which this ruffian is the type. As to Johnston we cannot but admire his fortitude and recognize in his conduct that material which is one of the first requisite of a good officer—pluck. MERCHANT.

COUNTY COMMISSIONER.

SOUTH SIDE, May 11th, 1871.

EDITORS GAZETTE:—We heartily concur with you in your article of the 8th inst., relative to County Commissioner that *"The very best man for the place, among those who are named, should be chosen"—that he should be a good business man,"* and above all *"he should be one in whose capacity and character the whole community have entire confidence,"* but we beg leave to differ with you in regard to which of the candidates having those qualifications should be nominated. Mr. Dilworth we believe is well qualified to fill the position and doubtless would under certain cicumstances make an acceptable commissioner but it is well known that he is a man of large means and has very heavy business interests to look after and we think it unreasonable to suppose that he would sacrifice those interests and give his eight hours per day in the Commissioners office. In fact it would be asking too much of him, to do it. Another reason that we think Mr. Dilworth should not be nominated is that that portion of the county lying between the rivers is now represented in the Commissioner's office as is also the portion north of the rivers, and that in justice the position belongs to the south side of the rivers. As such we propose to press our claims and we hope the central and northern districts will concede the justice of the claim and freely grant it to us.

We beg leave to suggest that Wm. H. Clarke, Esq., of North Fayette Township, would be "the right man in the right place" to fill that *posish*. He, as well as Mr. Dilworth, "combines all those qualifications" as will be readily vouched for by all those who have the pleasure of his acquaintance. He is a man of high moral character—always ready to stand up and defend what he believes to be right, no matter what the opposition—an earnest and active Republican, and always has been ever since the party came into existance, and we believe if nominated his name would give strength to the ticket.

SOUTH SIDE OF THE RIVERS.

OHIO.

XENIA has not a single base ball club. The people there believe in the speedy arrival of the millenium.

P. P. MAST & CO. are a new firm in Springfield, with a capital of $300,000, for making Anderson's agricultural steamers, for steaming food for stock.

THE Coshocton *Age* says: The prospect of securing a manufactory of steel and iron is brightening. About half the capital stock has been subscribed, and arrangements made to secure the services of an experienced manufacturer.

JAMES COLWELL, who has peen acting as section boss on the Little Miama road between London and South Charleston, was arrested on Thursday by detective Fiffany, of Xenia, and lodged in jail at London, for opening railway freight cars and stealing from them.

THE Ravenna *Press* says: "A few days ago the sons of Mr. Daniel Bogue, killed 176 rats at a single siege, in an old shed on his place in Rookstown. These pests are doing a great deal of damage throughout the country, and we fear to get rid of them, there will have to be a large importation of John Chinamen, or an exportation of the vermin.

THE Springfield *Republican* says: The large woolen factory of Felix Wise, at Medway, in this county, caught fire on Thursday morning and was totally consumed, together with its contents, throwing twenty-five or thirty persons out of employment. The property was insured for $5,000 and the loss will amount to $10,000 over and above the insurance. It is not probable that the mill will be rebuilt.

A LAW to prevent cruelty to animals has recently passed the Ohio Legislature, which will commend itself to all humane people. It is designed to prevent overdriving, overloading torturing or conveying in an inhuman manner any domestic animal, impounding or yarding the same for a longer period than twelve hours, without supply of food and water. Also to provide for the proper disposition of poor, worn-out animals turned into the streets or highways, &c., inflicting fines, for the violation of the law, ranging from five to fifty dollars.

WEST VIRGINIA.

DR. JOHN P. HALL has been *unanimously* elected Mayor of Charleston, the capital of West Virginia.

SOMETHING, supposed to be silver ore, has been discovered in Roan county, and a great excitement has resulted. Specimens of the supposed ore have been sent to Philadelphia for analysis.

COAL has been discovered near Ice's Ferry on Cheat River. It has been dug to the depth of eighteen feet, and still the vein has not been got through. The coal is said to be of a superior quality, as it burns readily and creates intense heat.

A BRANDONVILLE correspondent of the Uniontown *Genius* says: On Sunday, the 23d of April, near Cranesville, this county, a son of George Hartman was killed instantly. It seems that he, with a number of young persons, were a short distance from the residence of his father, engaged swinging in a swing which was attached to two trees, and was about thirty feet from the ground, on a steep hillside. He, with another young man, was in the swing at the time, and when they were about sixty feet from the ground his (deceased) hold broke and he was precipitated to the ground. In falling he struck against a tree and was instanttly killed.

THE STATE.

TYRONE is agitating the park question.

FIFTY new houses are going up in Johnstown.

THE Brookville *Republican* is getting a new press, and is about to be enlarged.

THE Uniontown Woolen Mills will commence operation regularly, about the first of June. The mills are now filling an order from the Western Penitentiary.

THE Barnacle murder trial and the return for a short visit to his native town of Lew Simmons, of Simmons and Slocum's Minstrels, are the great New Castle topics just now

THE Sabbath School Union of Dunbar township, Fayette county, held a meeting at the Laurel Hill Presbyterian Church, on the 5th inst. The conductor of the meeting was not Mr. Peechin, President of the Dunbar Iron Company, but Rev. J. B. Stoneroad, pastor of the church where the meeting was held.

THE *Raftsman's Journal* of Clearfield says: Sufficient rain fell the latter part of last week to make a good rafting flood in the river, and, as a result, a large number of rafts passed this place on their way to the lower markets. We hope our lumbermen will use every effort to get their timber to market now, otherwise they may fail to do so this season.

THE Greenville *Argus* says: We are again called upon to chronicle another death from the careless use of kerosene oil. At the Brookfield coal mine a few days ago, a little girl aged eight years, and daughter of a widow named Biren, attempted to make the fire burn by pouring oil on it from a can, which exploded and set her clothes on fire, and before the flames could be extinguished she was so badly burned that she has since died, after untold suffering.

WM. QUINTEN, an old German resident of Blacklick township, Cambria county, and a turner by occupation, had his skull fractured in a somewhat singular manner on Thursday afternoon last, and his injuries, it is feared, will prove fatal. He was engaged at the time in gumming a saw at the turning lathe, when the horse which operates the lathe became frightened at something and set the machine in such rapid motion that it caused the emory stone he was using, to fly into pieces, one of which flew up and struck him on the forehead with such force as to crush in the skull and inflict injuries from which it is not likely he can recover.

THE Brookville, Jefferson county, *Republican* says: On Monday morning last, Samuel Jordon, a farmer residing in Oliver township, most horribly murdered his wife, literally chopping her to pieces with an axe. It appears that Mr Jordon and his wife, a daughter of Mr. David Henry, were pursuing the usual routine of chores about the farm, and no visible change was apparent in the manner of Jordon, until he suddenly took up the axe from the wood pile in the yard and dealt her several heavy blows, causing almost instant death, the head being nearly severed from the body. Jordon's brother was present and saw the act committed, but was unable to prevent the horrible tragedy. After committing the deed he endeavored to cut his own throat with the axe, but was only successful in inflicting a severe wound. Yesterday he was brought to town and confined to jail, to await the disposition of the Court. We are informed by those acquainted with Jordon since childhood, that he was a smart, industrious and honest young man, but for some time he has shown signs of insanity, but not until the present has he been violent or disposed to act viciously. Both parties, the murderer and the murdered, belong to the most respectable families, who deeply feel their sad affliction.

NEIGHBORING CROPS.

THE Greenville *Argus* says: The heavy frosts of Sunday and Monday last have destroyed the fruit crop in many places.

THE Clearfield *Journal* says: TIMELY—the rain, the latter part of the past week. Grass and other growing crops are springing up rapidly in consequence. A good harvest is anticipated.

A CORRESPONDENT writing from Connellsville says: The late frosts do not appear to have injured the fruit much in this part of the county. Peaches, apples and cherries appear plenty. Grapes look like producing abundantly.

THE Erie *Gazette* says: From personal observation in Erie and Crawford counties we are able to say that the wheat crop looks better than in any season for the past fifteen years, and the yield will probably be equal to the best in any section of the Union.

THE Tuscarawas, O., *Advocate* says: Frost paid us a visit on Saturday and Sunday nights, seemingly determined to destroy the fruit if possible. On Saturday the early potatoes were nipped close to the ground, and on standing, shallow water, ice was formed a quarter of an inch thick. On the hills, we are informed the fruit is very little damaged, but on the low lands considerably injured. The green wheat fields present a very handsome and promising appearance at this time.

THE Uniontown *Standard* says: The cereals promise an uncommonly large harvest. Wheat is exceptionally heavy on the ground, and remarkably vigorous, being green and healthy beyond all precedent, while the oats crop, under the stimulus of the recent showers, is looking up amazingly, and the prospect now is that a heavy yield will reward the labors of the husbandman. The potato, now generally up and growing finely, shows a very vigorous stalk, and gives assurance of early maturity. Taking everything into consideration the prospect for an abundant harvest of all kinds was never better

THE Ravenna (Ohio) *Press* of the 11th inst. says: A severe frost visited this region on Sunday night. On Monday morning the grass blades on the low lands were frozen stiff, and ice was formed on water standing out in vessels. The same was repeated on Monday night, only a little more so. The strawberries have suffered considerably, and the early potatoes have been nipped. It is thought that the fruit, though somewhat injured, has not been entirely destroyed. Another big frost, or freeze, occurred on Tuesday night. It is not supposed that it did the fruit and early vegetables any good.

OIL NEWS.

The East Brady *Independent* says of the Armstrong run fields:

The following is a list of operations, as noted by us on Tuesday last:

No. 8, Clark farm, is doing 8 barrels a day.

No. 9 was cleaned out. No report of product.

The R. S. Wallace, which had flowed nearly 400 barrels, was torpedoed on the 9th. Doing 50 barrels per day.

The Jennings Bros' well was torpedoed two weeks ago, and immediately began throwing at the rate of 83 barrels a day, and has averaged since about 70 barrels a day. It is just six months since it was struck, and has yielded exactly 5,000 barrels of oil in that time.

The Meldren, No. 4, was struck on Monday last, and on Tuesday morning pumped about 60 barrels when some of the machinery gave out and pumping was suspended to make the necessary repairs. It will be a splendid well. It was begun ten months ago, but owing to breakages and other accidents was only completed on the 8th inst. It is 1,317 feet deep.

The Meldren Bros. well No. 5 is 1,335 feet deep. Oil was struck on Monday, but drilling continued There was 1,000 feet of oil in it on Tuesday.

James well, No. 4, was torpedoed on Saturday last, and in twenty-four hours flowed 400 barrels of oil.

The James well, No. 1, was being cleaned out preparatory to putting in a torpedo.

The Emma well is being cleaned; has being doing fully 50 barrels per day. Its owners are not satisfied with this production and wish to increase it. It can be done.

On the Dutches farm, now so prominent among oil men, we noticed many new rigs going up and several wells successfully pumping.

On lease No. 5, Brown & Jennings have a new well nearly completed.

On lease No. 6, Preston & McCoullough have started to drill.

On the north side of the farm, 16 acres are owned by Fertig & Hammond, and McKinney & Nesbit, on which four wells are under way.

The McKinney & Nesbit well formerly known as the Badger well, is producing 60 bbls per day.

Templeton and others have a new rig up on the lease north of the Gordon well.

The new rigs on Robinson's strip are nearly ready for drilling. Owned by A. McPherson, a prominent Hickory operator. On the same strip John Hamburg is putting down a new well.

The Gordon well is doing 50 barrels per day. It is owned by Ross Mechling and others. A few days ago a ¼ interest was sold at large figures.

The McFarland & Cooper well now drilling, was sold this week for $12,000. It is nearly down. Located on the Robinson, south of the Duchess Farm.

The Buffington well, Robinson farm north of Hammond & Fertig, will soon commence drilling.

Pretenders to the French Throne.

The Duc d'Aumale and Prince de Joinville are now residing in the Department de l'Orne, not far from Versailles, and lodged in the chateau of the Duc d'Audiffret-Pasquier. There these Princes await the decision of the Assembly upon their election, a decision which has not yet been rendered. Yet their friends urge upon these Princes the necessity of going away, saying, with truth, that their presence here can only injure their own cause. But Monsieur d'Aumale will not go away. By some fortunate turn of the wheel it might happen that the Assembly should call for an Orleans, and Monsieur the Duc d'Aumale, wishes to be on hand to take the inside track against his nephew, the Count de Paris. Meantime the presence of the Duc has become doubly embarrassing, for all the assassins and would-be regicides in Europe seem to be hurrying to the spot, ambitious of the glory of murdering the Duc d'Aumale. It requires a triple force of police to arrest all the suspicious characters lurking about the chateau, with an arsenal of small arms upon them. A round dozen have already been arrested, and once more efforts are being made to get the Duc to go further away.—*Paris Correspondence of the N. Y. Times.*

TO RUPTURED PERSONS.

We have often said, and now repeat, that persons who have any rupture or condition requiring mechanical support, that there is no better place that can be found than that of Dr. Keyser, of 167 Liberty street. We have not only known rupture relieved, but we have seen crooked spine and varicose veins treated with the most perfect success at the same place, and we would advise our readers to cut this out and go no where else when they need such services, and we do so with the full assurance that they will get full satisfaction. The Doctor has had an experience of over thirty-five years in the treatment of rupture, and it would be more than singular if in that time he had not acquired an entire mastery over that terrible and now common malady. The Doctor is now called in all difficult cases of rupture. Remember his office, 167 Liberty street.

FRESH ARRIVAL—JUST RECEIVED.
50 cases St. Louis Michigan Water.
25 cases of Hathorn Saratoga Water.
10 cases of High Rock Congress Water.

JAMES E. BURNS & CO.,
Corner of Penn and Sixth street.

PERSECUTED ORGAN.

The human stomach has been a shamefully persecuted organ. There was a time when for every dereliction of duty it was punished with huge doses of the most disgusting and nauseous drugs. In vain it rejected them and literally returned them upon the hands of those who administered them. They were forced upon it again and again until its solvent power was thoroughly drenched out of it.

The world is wiser now than it was in that drastic era, when furious purgation and mercurial salivation were what Artemus Ward would have called the "main holt" of the faculty, in cases of dyspepsia and liver complaint.

The great modern remedy for indigestion and biliousness is Hostetter's Stomach Bitters, a preparation which has the merit of combining a palatable flavor with such tonic, aperient and antibilious properties, as were never heretofore united in any medicine.

It has been discovered at last, that sick people are not like the fabled Titans, who found prostration so refreshing that, when knocked down, they rose from earth twice as vigorous as before. When an invalid is prostrated by powerful depleting drugs, he is apt to stay prostrated; and the debilitated being aware of the fact, prefer the *building up* to the *knocking down* system of treatment.

Hostetter's Bitters meets the requirements of the rational medical philosophy which at present prevails. It is a perfectly pure vegetable remedy, embracing the three important properties of a preventive, a tonic, and an alterative. It fortifies the body against disease, invigorates and revitalizes the torpid stomach and liver, and effects a most salutary change in the entire system, when in a morbid condition.

In this country where the enfeebling temperature renders the human organization particularly susceptible to unwholesome atmospheric influences, the Bitters should be taken as a protection against epidemic disease.

Johnstown Improved Hydraulic Cement,
This Cement is equal to any cement made in the United States, in many respects better than the Louisville Cement or the Rosendale, and decidedly better in all respects than the Uniontown or Akron Cement. It has a smaller amount of shrinkage, sets gradual, bears as much sand as any cement made, and gets as hard; stands frost well it has all the qualities that hydraulic cement should have. The facilities for getting this cement a greater than all others in this market, less freight and fresher, which is an important matter. Having but a short distance to ship we can therefore sell cheaper than any other in the market.

MONEY AND COMMERCE.

NEW YORK, May 13, 1871.

Gold firm at 111⅛@111⅜. Its future depends somewhat upon the acceptance or rejection of the Washington treaty. Loans were made at from 1 to 2 per cent. Clearings $37,000,000. Exports to-day, about $1,500,000; for the week, $2,833,236. Governments firm and a fraction higher in purchases for shipment by foreign banks. Subscriptions to the new loan $1,820,000. Stocks have been irregular; Union Pacific and Erie strong and active, but most of the list has been made apparently weak by cliques, to induce short interest; Indiana Central and Express shares strong and tolerably active, market closing steady.

The bank statement shows the following changes:

Loans, decrease	$ 81,487
Specie, increase	389,229
Circulation, decrease	72,826
Deposits, increase	374,478
Legal tenders, increase	2,153,084

Money very easy at 3@4 per cent. State securities firm and higher.

Sterling exchange 110⅛.

GOVERNMENTS—Coupons, 1881, 117¾; 5-20's, '62, 111¼; '64 111; '65 111 do new, 113⅜; '67, 113⅜; '68, 113⅝; 10-40's, 109⅜; currency, 6s, 115⅜.

STATE BONDS—Missouri, 95⅛; Tennessee old, 70; do new, —; Virginia, new, 71½, do old, 68½; North Carolina, old, 47¼; do new, 26.

PITTSBURGH MARKET.

OFFICE OF THE PITTSBURGH GAZETTE,
SATURDAY, May 13, 1871.

ASHES—Common Soda Ash, scarce and higher with sales at 4⅛@4⅜; refined do, 4⅜@4¾; Pearls, 9@9⅛; Pots, 7⅛@7⅛.

APPLES—Receipts continue very meagre and the demand is light though prices are maintained, $5@7 per bbl, for common to choice.

BUTTER—The receipts continue liberal and with no improvement in the demand the market is dull and prices unchanged; 12@15c for fair to good and 18c for prime. Some parties are disposed to believe that the bottom has been touched, that the low prices will cause shippers to hold back or ship to other markets, and that, in consequence, there will be no further decline.

BROOM CORN—Is very dull but prices are unchanged.

BEANS—Dull; $1.50@2.00 per bushel.

BEESWAX—Quoted at 28@30 cts.

COTTON—Sales at 12⅛c per lb to upholsters and 14@14⅛ for spinning.

CHEESE—New crop Ohio Goshen, 16; Ohio Factory, 15; Common Western Reserve, 13@14.

CARBON OIL—Firmer and higher, 22@22⅛ in a jobbing way—usual advance for small lots.

CORNMEAL—Demand very light and prices unchanged; small sales at 90 cts per bushel.

CANDLES—Quoted at 12 cts for mould, and 19 for star.

CEMENT—Louisville, $2.50@2.75 per bbl; Johnstown, $2.25; Rosendale, $4.00@4.50; Calcined Plaster, $4.50; Land Plaster, $3.50@3.75.

COUNTRY BACON—Continues very dull and prices are lower; shoulders, 6@6⅛; ribbed sides, 7@7⅛; clear sides, 8@8⅛; hams, 10@12. Country Lard, 9@10⅛, as to quality and condition.

CANNED GOODS—Are moving pretty freely but at a lower range of prices. Peaches, 2 lb cans, $2.00@2.50; 3 lb, $3.00@3.75; Tomatoes, 2 lb cans, $2; 3 lb, $2.50@2.70. Winslow's Corn, $2.50@2.75.

DRIED FRUIT—Peaches scarce and the demand is better; quarters, 10@11; mixed, 12@13; halves, 14@15; peeled, 16@17. Prime bright apples in better demand and scarce—may be quoted at 7 cts; common, in good supply and dull.

EGGS—The demand, if anything, is rather better, but with continued liberal receipts, there is no change to make in quotations, 14@15c; the arrivals thus far this spring seem to be considerably larger than usual.

FEATHERS—Scarce and in demand, with sales of No. 1 live geese feathers at 74@75—usual advance in a small way.

FLOUR—Continues to fluctuate considerably in the west—down one day and up the next, but in our market there has been little or no change in prices for several weeks; the demand, however, is light and mainly local, and buyers generally are taking hold sparingly in anticipation of lower prices. We continue to quote at $6.75@7.00 for fair to good spring extras; $7.25 for choice Minnesota baker's flour; $6.75@7.00 for good red winter wheat; and $7.25@7.50 for white. Rye Flour, for small lots in store, $6.25.

GRAIN—The receipts of Wheat continue meagre and with little or no stock in the hands of dealers and a good milling demand, the market is firm, though there is no quotable advance in prices, $1.40@1.45 for fair to prime red and $1.50@1.55 for white. Oats stiff and the receipts have been comparatively light for some days past and prices are well sustained; 57@58 buying, 59@60 selling—small lots, in store, 62@63. It is thought strange that the Philadelphia market does not improve, as there is usually considerable inquiry from that place at this season of the year—at present shipments cannot be made east. Corn is a little more active but unchanged; 68@70 for mixed ear and shelled and 70@72 for prime yellow. Rye is quiet, and unchanged—offerings continue light, but the same is true of the demand. Barley is without quotable change—80@85 for spring and 90@95 for fall.

GROCERIES—Our advices from the east, particularly from New York, report a continued dull market for Rio Coffee; and, while importers still quote at former figures, the bulk of the bids are far below their views and it is probable that further concessions would be made in order to effect sales. Sugars are still held firmly here, but the latest intelligence from New York indicates a slight regency from the excitement which prevailed for action, the excitement which prevailed some time having subsided, and the demand has fallen off, though there is as yet but little change in prices excepting that "hards" are quoted an eighth lower, 13⅞@13⅞. Nothing new to note in regard to Molasses, Syrups or Rice. Foreign Fruits dull and Layer Raisins have still further declined. Following are the ruling quotations:

COFFEE—Fancy Rio, 19; Prime, 18; Good, 17; Fair, 16⅛; Roasting, 16@16⅛.

SYRUPS AND DRIPS—White Honey, 72; Havemyer & Elders, 72; Silver Drips, 60; Loverings, 62; other grades, 45@55.

SUGARS—Choice New Orleans, 12; prime, 11⅛ good, 11; fully fair, 10⅞; Porto Rico Sugars 10⅜@11⅛; Cuba, 10⅜@11⅛; Demarara, 11⅛@12⅛.

REFINED SUGARS—Hard Sugars, 14⅛; A Coffee, 13⅛; "B," 13⅛; Extra C, 13⅛; C. yellow, 13.

MOLASSES—New Orleans, choice, 70; prime, 68; good, 65.

TEAS—Fancy Young Hyson, $1 40; Good, $1 10; Fair $1. Lower grades down to 70cts. G. P. Fancy, $1 50; good, $1 25; fair, $1 10; Imperial Fancy, $1 40; good, $1 25; fair, $1; Oolong fancy, $1 25; good, 80cts; fair, 60@70c; Souchong fancy, $1 20; good, 90c; fair, 70@80c, Japan Fancy, $1; good, 90c; fair, 75c.

RICE—Choice Carolina, 10c; prime, 9⅛c; good, 9c.

SPICES—Grain Pepper, 22c. Pimento, 17c. Cloves, 30c. Cassia, 55c.

FOREIGN FRUITS—Currants, 11⅛@12 cents. Prunes, 11c. Valencia Raisins, 13c. Layer Raisins, $3.15 per box.

HAY—There is an improved demand and the market is firmer and prices a shade better; sales baled, on wharf, at $14@17. Sales from country wagons at $15@20.

HUSKS—Quoted at 2⅛@2⅛ cts.

HIDES—Green salted (all weights) 10⅛@11⅛; green butchers (cow and steer) 7@8; green salted kip 14@18; do calf, 16@18 Dry.

HEMP—Rough Kentucky, $175 per ton; dressed, 14 cts per lb.

LIME—Sales of Cleveland at $2.25 per bbl and eastern at $1.75.

MAPLE SYRUP—We can report regular sales at $1.50@1.70, in gallon jugs, as to quality.

MILL FEED—Middlings are in comparatively light supply but the demand is only moderate; small sales at $1.85@1.85. Bran quotable at $1.40@1.50. Oil Meal, $43@45 per ton.

OILS—Extra No. 1 Lard Oil is still quoted at 93@95. Linseed Oil is weak and drooping.

PEAS—Sales $1.50 per bushel.

POSTS—Sales cedar posts at 45@50 cts each.

PROVISIONS—Plain shoulders, 8c; sugar cured, 10c; ribbed sides, 10c; clear do, 11c; plain sugar cured hams, 14@14⅛; canvassed, 15@15⅛. Breakfast bacon, 14c plain and 15c canvassed. Dried, 18@19c, plain and canvassed. Lard, 11⅛@12c in tcs, and 12⅛@13c in kegs and buckets.

PEA NUTS—Supply is pretty well reduced and prices are higher—we now quote at 9⅛@10 cts.

POTATOES—The market is hardly so strong though as yet prices are still maintained; we continue to quote prime Lake Shore Peach Blows at $1.10 in bulk, and $1.15 sacked, by the car load, and $1.20@1.25 for small lots, in store. Western Peach Blows, $1.00@1.05 by the car load. New crop potatoes, $7@8 per bbl.

POULTRY—Live Chickens in fair demand with sales by the coop at 70@80 cts per pair.

SEEDS—There is little or no inquiry for either Clover or Timothy Seeds and the season may be regarded as over. Flaxseed is scarce and wanted—may be quoted firm at $2.20@2.25.

SOAPS—Rosin, 3⅛@5 cts; Chemical Olive, 7⅛; Crampton's, 10; Wax, 8; Babbitts, 11; Woman's Friend, 9⅛; Dobbins, 14⅛; Kitchen Crystal, 10; Colgate's Palm, $4.75.

SUMAC—Sales Tennessee Sumac at 4⅛ cts.

TALLOW—Rendered, 8@8⅛.

WILLOWS—Sales Kentucky willows at 10

PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE,
SATURDAY, May 13, 1871.

The oil market has been considerably excited this week, and as compared with last week, there has been a sharp advance in prices, for both crude and refined, and the volume of business was unusually large in the aggregate. Yesterday, however, unmistakeable signs of weakness were developed, and to-day a complete reaction seemed to have set in, as both New York and Philadelphia sent out orders to sell and even at a slight concession there were but few buyers; and the market closes dull and weak all round. On the creek there has been a decline of 15 to 20 cts per bbl within the past 48 hours, and in this market buyers were loth to take hold even at a reduction of ⅛ to ⅛ of a cent per gallon; as noted in our last report, the impression is gaining strength that the recent advance was too rapid to be permanent, and a further decline is anticipated, and this accounts for the scarcity of buyers. New York operators, who were heavy buyers of refined during the early part of the week, have been offering to sell within the past two days, and to this may be attributed the depression which prevailed to-day, and the decline in prices. Considerable anxiety is manifested in regard to the course of the market during next week, and, as might be expected, there is a great diversion of opinion on this point.

Receipts of crude this week, 16,624 bbls.; last week, 29,463 bbls.; January 1st to date, 303,500 bbls.; same time last year, 349 961 bbls. Exports refined this week, 10,322 bbls.; last week, 5,902 bbls.; January 1st to date, 166,991 same time last year, 174,938 bbls. Sales this week, 28 800 bbls. crude; 18000 bbls. refined; last week, 17,000 bbls. crude; 5,000 bbls. refined.

CRUDE.

Sales 1,000 seller May at 11⅜; 1,000 seller June at 11⅞; 1,200 bbls spot at 11⅞; 2,000 spot, (tank oil 43 gravity) at 12; 2 barges spot—on Friday evening—at 11 13-16; at the close to-day, 11⅛ was the best bid for May and seller until July may be quoted at 11⅜@11⅜.

REFINED.

Weak, unsettled and lower, May quoted at 24⅛; June, 24⅜; July, 25@25⅛; August, 25⅛; August and September, together, offered at 25⅛ against 26 bid yesterday.

[By P. & A. Telegraph.]

PHILADELPHIA, May 13—12 M.—Crude 13⅜c. Refined—last half May, 24⅛@24⅛c; first half June, 25⅛c, last half, 25c; last half July, 25⅛c; last half August, 25⅛@25⅛c. Market easy and no sales.

NEW YORK, May 13.—12 M.—Market quiet and easier. Refined 24⅜@25. Crude nominally 14⅛c. No sales.

3 P. M.—The Market is weaker and prices lower; crude 14c, sales for futures at this figure; no bids above 13⅜c for spot. Refined 24⅛c; sales 3000 bbls May at 24⅛c: 1000 June at 25c; 5000 May and June at 24⅛c.

TITUSVILLE, May 13—9 P. M.—The market was more quiet to-day, not so many buyers being in the field as for several days previous; holders of oil were asking advanced prices, and several transactions were reported at from 5@10c above yesterday's prices. On the Lower Creek $4.55@4.60 were bid, with sellers at $4.60@4.65; on the Upper $4.30@4.35 were the ruling figures for spot, and from $4.40 to 4.42⅛ for regular; the market closed a shade easier and quiet; we quote the following sales of regular on Upper: 1000 bbls at $4.42⅛; 1500 bbls at $4.40; spot, 1500 bbls at $4.35; 600 bbls at $4.30; on Lower Creek, 2000 bbls at $4.60; 500 bbls regular at $4.60. June 1st $4.60; at Rouseville 1000 bbls at $4.65; 500 bbls at $4.55; 500 bbls at $4.60; 500 H. G. at $4.70; 1000 bbls on the Upper B. O 1st P. at $4.75.

TITUSVILLE, May 13—12:30 P. M.—Market quiet with not so firm a feeling; $4.36 bid for spot, with no transactions yet. Weather clear and warm.

ROUSEVILLE, May 13—11:45 A. M.—Market quiet and firm, offering at $4.60@4.65.

OIL CITY, May 13, 11:15 A. M.—Lower $5.55@6; Oil City 70@75c. Weather clear and warm.

PLEASANTVILLE, May 13, 11:40 A. M.—Market quiet but firm at $4.10.

TIDIOUTE, May 13, 11:40 A. M.—Market about $4.30.

PETROLEUM CENTRE, May 13, 11:30 A. M.—Market quiet and firm; offering $4.55; holding at $4.60. No sales reported.

PARKERS, May 13, 11:30 A. M.—Market dull and nothing doing. Prices $4.55@4.60.

PITTSBURGH CATTLE MARKET.

EAST LIBERTY STOCK YARDS,
SATURDAY, May 13, 1871.

RECEIPTS STOCK.

The receipts of stock at the Central Yards for the week ending to-day, were as follows:

	This week.	Last week.
Cattle	213 cars.	184 cars.
Hogs	160 "	103 "
Sheep	115 "	112 "
Horses	36 "	64 "
Mules	12 "	5 "
Total	536 "	468 "

CATTLE.

Notwithstanding the receipts this week have been rather larger than usual the sales were light only reaching about 400 head all told; the market, however, was quicker than last week, and prices ruled at least a quarter of a cent higher. The great proportion of the 213 cars received during the week were through cattle, and consequently the number put on the market for sale was not large, and until towards the close, after most of the buyers had returned east, the supply was not equal to the demand; yesterday and to-day there were some 15 to 18 cars on sale, but in the absence of buyers, it being too late in the week to sell here, 10 loads of them were shipped on east, and it is probable that the balance will be sent on to the same destination.

Good to prime shipping cattle sold at 6⅛@7 cts—4 loads sold during the week at the outside quotation, and it should be borne in mind that nothing but strictly No. 1 steers, fat and smooth, brought that figure. There is some little inquiry for stock cattle and but very few of this kind coming forward; and farmers and stock growers are not disposed to pay the prices asked; the fact is there is not enough difference between the price of fat cattle and stockers. Good stock steers averaging 800@900 lbs cannot be sold here for less than 5⅛@5⅛; while at the same time medium fat cattle are not bringing over 6@6⅛.

Hazlewood & Blackstock sold for Mallory to Kleman & Aull, 32 weighing 38,880 lbs, at $6.65.

Holmes, Lafferty & Co. sold for Byers to McCauley 16 weighing 17,740, at $6.40.

SHEEP.

The arrivals have been fair and the most of the offerings of good quality, and while it looked about the middle of the week as if a break was imminent, the receipts since then having fallen off, the market closes steady and prices, particularly for the best grades, are fully as high as they have been at any time within the past six months. Prime (clipped) 85 to 90 lbs, quoted at 5⅛@5⅛; 75 to 80 lbs, 4⅛@5; common, 3⅛. Best 90@95 lb, fine wool, 7⅛@7⅛; good, 75@80 lbs, 6⅛@7.

Mr. A. Reed, of Washington Co. Pa., sold one of the best lots of clipped sheep offered here this season—averaged 104 lbs, and brought $6.40. Erisman, of course, was the purchaser. Following is a partial report of sales for the past three days:

	No.	Wght.	Price.
Hedges & Taylor sold for:			
Keenan to Lloyd	184	15,500	6 30
Waterous to Lloyd	81	8,240	6 75
" " "	88	8 820	5 55
Webb " "	39	2,640	4 00
Gwin & K to Landis	174	15,320	6 37
Smith, Watson & Briggs sold for:			
Shriver to Davis	185	14,280	6 37
Tenike to Erisman	222	18,520	5 60
Juvenall to Lloyd	345	31,160	7 25
" " "	170	14,890	6 50
Shriver to Hines	199	15,480	5 12
Long to Pearce	99	8,350	4 85
Allen to Landis	247	20,180	5 12

HOGS.

Market closes quiet, though if anything, the feeling is a shade stronger, and the impression is gaining strength that the bottom has certainly been touched, and there will soon be a reaction and higher prices. There has been no advance, as compared with the early part of the week. Philadelphia Hogs may be quoted at 5⅛@5⅛ and Yorkers at 5@5⅛. Following is a partial report of sales for the past three days:

	No.	Wght.	Price
Hedges & Taylor sold for:			
Whitesides to Voetter	43	10,550	5 40
Lytle to Snover	71	12,639	5 30
Magors to Erisman	56	11,240	5 25
Bundy to Voetter	57	12,030	5 25
Maxwell to E. Smith	97	20,980	5 05
Sharp to Orr & Williams	120	22,090	5 30
" " Voetter	48	10,000	5 30
Welsh to E. Smith	134	21,910	5 20
Briscount to Hedges	80	12,850	5 20
Smith, Watson & Briggs sold for:			
Tanner to Reyenthaler	25	12,160	5 10

MARKETS BY TELEGRAPH.

HOGS—Steady at $4.40@4.80.

CATTLE—Quiet at $4.40@6.50.

RECEIPTS—Hogs, 4000.

SHIPMENTS—Hogs, 6000.

New York.

NEW YORK, May 13.—Cotton active and advanced: middling upland 16c. Flour dull and unsettled; superfine western and State $565@585; common to good extra $605@625; white western extra $685@720; Ohio extra $620@690; St. Louis $625@900. Rye flour $425@610. Cornmeal western $365. Whisky easier 91⅛; Wheat dull: new spring $154@155; red and amber $156@160. Rye, barley and malt quiet. Corn opened firm, but closed dull; western mixed 89@80c; yellow 81⅛@82c. Oats steady; western and Ohio 65@70c. Leather active at 25@29c; orinoco 26@27⅛c. Wool firm and pulled 67c. collored 23⅛@26c; Taxas 25. Hay dull, at $100@105; shipping $115@130. Retail hops quiet; State 8@12c; western 6@9c. Coffee: prime Rio 13⅛@16⅛c. Sugar in fair demand, but at lower rates; Cuba 9⅛@9⅛c. Molasses firm; Muscovido 39@42c. Rice 8⅛@9⅛c. Crude petroleum 14⅛@14⅛c; refined 24⅛@25c. Pork steady; mess $17@17.75; prime pork $14.50@15.00; prime mess, new $15@15.50, June $17.00. Beef steady; mess $10@15, extra $15@15; hams $26@29; prime mess $24@26; India $25@29. Cut meats steady; hams 11@13⅛c; shoulders 6⅛@7c; middles quiet, clear bellies 9c. Lard quiet; prime steam 10⅛@11⅛c; kettle dried 11⅛c; July 11⅛c. Butter dull; 11@27c for western; 15@30c for State. Cheese inactive; 7@13⅛c.

METALS.—Copper ingot at 21⅛c. Iron; Scotch pig at 32@36c; bar at 75c; Russia sheet at 11⅛@12c; cold cut nails at $4.75; clinch at $6.25@6.72 horse shoe at 19@31.

LATEST.—Flour dull and unchanged at $6.00@6.30 for shipping extra. Wheat dull and a shade lower, new spring at $1.53@1.55. Oats, at 65@69c. Eggs firm at 17@17⅛c.

Dry Goods.

NEW YORK, May 13.—Prices in the main are steady and firm, except for heavy brown sheetings, which are depressed. In printing cloths speculation runs riot down in Providence, and sales are reported up to the end of the year and even into next, which are nothing more than delusive, and we venture to say that few of those contracts running so far ahead will ever be fulfilled. Sales are reported for January next at 7@9c for immediate delivery, and 7⅛c for standard 7 yards to the pound of cloth, while 284 yard 20 lb. sheetings are selling at 12@12⅛c. The discrepancy is too great and consequently several mills running on light goods, such as shirtings, have changed on to print cloths which are selling at a profit of nearly two cents per yard. While cloths rule so high printers cannot put much good madder colors in prints to sell at present rates, and hence they contemplate putting up the price of new and dark works. In other classes of goods there is nothing of moment transpiring calling for extended remarks or change in prices.

Cincinnati.

CINCINNATI, May 13.—Cotton active and advanced; middling 14⅛@15c. Flour firm; family $6.40@6.60. Wheat scarce and firm at $1.42@1.45. Corn firm at 57c. Rye scarce and firm at $1@1.03. Oats dull and unchanged; mixed 52@57c. Barley steady; prime fall $1.15. Groceries: demand good at full prices. Oils steady; linseed 96c. Lard 90@93c. Eggs firm at 15c. Butter heavy; receipts depressed; market dull and delivered at 20@25c. Cheese firm. Pork quiet and weak; small sales at $17.25@17.50. Bulk meats firm; shoulders 6⅛@6⅛c; sides 8, 8⅛@8⅛c; bulk sides do; sides clear rib and clear bacon firm; sales at 7, 9@9⅛c; but a shade higher generally asked. Hogs dull but unchanged. Whisky quiet and weak; sales at 87⅛@88c; closing at inside figures.

Louisville.

LOUISVILLE, May 13.—Cotton active and advanced; middling 14⅛c. Flour firm; supply light; extra family $6.50@6.75. Wheat scarce and firm; choice $1.40@1.50; other grains in fair supply. Corn 68c. Oats 63c. Rye $1.05. Provisions quiet and steady. Mess pork $18. Bacon packed 7⅛@9⅛@9⅛c; hams, sugar-cured, 15c; do plain 14c. Bulk meats loose, 6⅛@8@8⅛c. Lard 11@12⅛c. Whisky quiet at 88c. Tobacco active; sales of 206 hhds; lugs $4.75@5.75; low to good cutting leaf $6@24.

Toledo.

TOLEDO, May 13.—Flour firm. Wheat dull but unchanged; No 1 white Michigan $1.54; amber Michigan $1.41⅛; No 2 red Wabash $1.41 No 1 amber Indiana $1.55. Corn firm; high mixed 60⅛c; low do 59⅛c; yellow 61⅛@70c; no grade 57⅛c. Oats quiet and unchanged; No 1 56c; Michigan 55c. Freights firm; to Buffalo 3c.

Cleveland.

CLEVELAND, May 13.—Flour dull and unchanged. Wheat dull and inactive, no sales; No 1 red winter held at $1.43; $1.42 bid. Corn firm at 65c. Oats held firm at 57c. Petroleum: crude quiet but firm at $5.10@5.20; refined firm but unchanged and held at 22⅛c.

Milwaukee.

MILWAUKEE, May 13.—Flour firm; X X $5.75@6.75. Wheat firm; No. 1 $1.31@1.31⅛; No. 2 $1.28⅛. Oats scarce and firm; No. 2 49c. Corn firm; No. 2 mixed 61c. Rye firm; No. 1 89c. Barley dull and nominal.

Nashville.

NASHVILLE, May 13.—Cotton advancing; low middling 14c. Bacon: clear sides 10⅛c. Hams 15⅛c; shoulders 7⅛c. Sugar cured hams 16c. Lard 12c. Bulk meats: clear ribbed sides 9⅛c; shoulders 16⅛c. Packed corn 70c. Oats 79c. Flour $5@8.

Cotton Markets.

NEW ORLEANS, May 13.—Cotton active at 15⅛@15⅛c.

CHARLESTON, May 13.—Cotton steady at 15c.

MOBILE, May 13.—Cotton firm at 15⅛@15⅛c.

GALVESTON, May 13.—Cotton strong; good ordinary 13c.

Orders promptly executed on reasonable terms

RIVER NEWS.

The river continues to recede rapidly at this point with 5 feet 8 inches in the channel. Weather cloudy and cool with indications at times of rain.

The R. W. Skillinger from Portsmouth, and Julia No. 2, from Zanesville, were due last night and will be found in port this morning.

The Arlington arrived at Cincinnati on Friday and departed as usual on Saturday. She will reach here to-morrow and leave again on Wednesday, her regular day.

The R. W. Skillinger, Capt. Flesher, is the regular packet for Portsmouth to-day, leaving promptly at 4 P. M. She will receipt passengers and freight through to Cincinnati. The Skillinger is an A 1 boat and has become a fixture in the Pittsburgh and Portsmouth packet trade.

The Wauanita departed for St. Louis on Saturday with a good trip, about 500 tons of freight and engagements below. She left here drawing 6 feet. Leander Patterson and Jerry Whitten are her pilots.

The Belle Vernon, from St. Paul, arrived on Friday evening. She made the round trip to St. Paul and back in six weeks, and was delayed considerably by rough weather.

The Ajax was to have left Louisville on Saturday for New Orleans, with one of the largest tows of coal ever towed by one boat, ten boats and 16 barges, containing about 522,- bushels.

The Lorena, Capt Sam Shuman, is announced for St. Louis and the Upper Mississippi.

Com. W. J. Kountz, reached home from Sioux City on Friday. He reports having left about 900 tons of government freight, which will be taken up this week by the Katie P. Kountz and Mollie Moore. The Andrew Ackley was due thre, and she too will proceed on up to Fort Benton.

The Comet Capt. Hare is filling up steadily for St. Louis and intermediate points. She will receipt freight to Memphis and New Orleans.

—Capts. Lloyd T. Bell and Harry Brolaski have purchased about three-fourths or $30,000 worth at par of the stock of the St. Louis and Peoria Packet company. Peoria being a point on the Illinois river, two hundred and forty-two miles distant from St. Louis. The stock was that owned by John S. McCune, Esq., who has been for three years past President of the Peoria Packet Company, and over twenty years President of the Keokuk Packet Company. The property of the Peoria Company consists of three sternwheel steamers, four barges, interest in a wharfboat at St. Louis and a warehouse at Pearia.

—The Louisville *Commercial* says: Late in the year of 1870, the steamer Right Way exploded her boilers in Bayou Lafourche, and by the accident some fifteen or twenty persons were killed. The wreck was brought out of the bayou and towed up the river to Madison, and the Right Way was rebuilt there. She passed inspection, and is now considered a staunch seaworthy craft. She will pass down the river to-day, en route to New Orleans, to resume her place in the bayou trade.

—The Leavenworth *Times* contains the following: Mr. E. S. Wilbite, the commission merchant and steamboat agent, speaking of the greatly increased width of the river, said to us yesterday that when he carried a surveyor's chain through here in 1854 a man could easily throw a stone across the river in the lower part of the city. A packing house, saw mill, farm house and barn have been swallowed up since then by the greedy and turbulent Missouri.

—The Evansville *Journal*, of Wednesday, tells the following: We are pained to learn that Will H. Morgan, of the Kate Robinson, during the late terrific storm had his hat, so familiar along the river, carried away by the wind. His friends, however, we are glad to say, are raising a testimonial fund to remunerate his loss, and Richard will soon be himself again.

—There are several mountain steamers, awaiting orders at St. Louis, the E. C. Durfee, Silver Bow, Esperanza, Mary E. Poe, Silver Lake No. 4. are among the number. The Great Republic will come up to the Merchants' Southern packet company's wharfboat this morning and commence to take on freight.—*St. Louis Democrat.*

—In the suit of D. H. Silver and Joseph Conn against ex-Sheriff McNeil, for the seizure and detention of the steamer City of Peoria, judgment was rendered on Wednesday last, awarding the plaintiffs $2,500 damages.

—A dispatch from Fort Benton, under date of 11th, says: The Missouri has risen six feet here. There is a prospect of more water than during the past four years.

—At Fort Benton there is a prospect of more water than for four years past.

RIVER PACKETS.

U. S. MAIL LINE.

Pittsburgh, Brownsville and Geneva Packet Company.

LEAVES DAILY AT 8 A. M., 4:30 P. M.,

DOLLAR SAVINGS BANK,

No. 124 Fourth Ave.

CHARTERED IN 1855.

ASSETS $2 891 335.18.

Open daily from 9 o'clock A. M. to 3 o'clock P. M., and SATURDAY EVENINGS, from May 1st to November 1st, from 7 to 9 o'clock, and from November 1st to May 1st, from 6 to 8 o'clock.

Deposits received of all sums of not less than ONE DOLLAR, and a dividend of the profits declared twice a year, in June and December. Interest has been declared semi-annually in June and December, since the Bank was organized, at the rate of Six Per Cent. per year.

Interest, if not drawn out, is placed to the credit of the depositor as principal, and bears the same interest from the first days of June and December, compounding twice a year, without troubling the depositor to call, or even to present his pass book. At this rate money will double in less than twelve years.

Books containing the Charter, By-Laws, Rules and Regulations, furnished gratis, on application at the office.

PRESIDENT—JAMES HERDMAN.

VICE PRESIDENTS.

George Albree, John G. Backofen, Benj. F. Fahnestock, James McAuley, James B. D. Meeds, Isaac M. Pennock, | A. M. Pollock, M. D., Robert Robb, John H. Shoenberger, James Shidle, Alexander Speer, Christian Yeager.

FOUNDERS, MACHINISTS.

GRATES.

GRATES.

Keep Your Houses Clean,

AND

SAVE FUEL.

BY USING THE

Wellman Patent Reflector

STOVE AND GRATE.

Which Stand Without a Rival.

The WELLMAN STOVE is furnished with the "REFLECTOR GRATE," and possesses all the advantages of an open fire place; it is specially adapted to houses where the flues are too small to admit a grate, and affords all the comforts of a CHEERFUL OPEN FIRE.

1st. As a radiator of heat it has *double* the intensity of any other grate.

2d. It is unquestionably the most cleanly—no soot or ashes escaping into the room—which, in the ordinary Grate, proves so detrimental to carpets and furniture.

3d. The combustion is *perfect*. There is no waste in unburnt cinders—every ounce of the fuel is so completely consumed, that nothing remains but the finest ashes.

4th. As an economizer of fuel—there being an *actual saving* of at least 25 per cent.

5th. It is highly ornamental.

6th. It is set so deep in the chimney, that it is much safer, and also less liable to puff in windy weather.

7th. A slight motion of the shaker cleanses the entire fire, and causes it to burn with great brilliancy and intensity of heat.

Samples may be seen and references had at the store of W. BARNES, corner of 3d avenue and Market street, Pittsburgh; W. F. GOODWIN, 66 Federal street, Allegheny, or at the FOUNDRY, corner Duquesne Way and Water street, Pittsburgh.

Parties who are building, or who contemplate changing Grates, are respectfully requested to examine "The Wellman." Satisfaction guaranteed in all cases.

PITTSBURGH, CINCINNATI AND ST. LOUIS RAILWAY PAN HANDLE ROUTE. On and after SUNDAY, March 12, 1871, trains will leave and arrive at the Union Depot, Pittsburgh, as follows, city time:

DEPART.		ARRIVE.	
Fast Line	1:43 a. m.	Southern Express	3:38 a. m.
Dennison Accom'n	7:15 a. m.	McDonald Ac	8:03 a. m.
Pacific Ex.	11:03 a. m.	Steubenville Accom'n	9:58 a. m.
M'Donald Accommod'n	11:43 a. m.	Cincinnati Express	12:28 p. m.
Southern Express	3:28 p. m.	McDonald Accommod'n	4:13 p. m.
Steubenville Accommod.	3:53 p. m.	Dennison Accom'n	6:43 p. m.
McDonald Accommod'n	5:13 p. m.	Fast Line	7:38 p. m.
Sunday Ch'h Train	12:58 p. m.	Sunday Ch'h Train	9:58 a. m.

The 11:03 A. M. Pacific Express will leave daily. The 12:28 Cincinnati Express will arrive daily. All other trains will arrive daily, except Sundays.

Trains on Chartiers road will leave Mansfield on the arrival of Dennison Accommodation, leaving Pittsburgh at 7:13 A. M. on Steubenville Accommodation, leaving Pittsburgh at 3:53 P. M.; returning, will connect at Mansfield with trains due at Pittsburgh at 9:58 A. M. and 4:13 P. M.

J. N. McCULLOUGH, General Manager.

F. R. MYERS, Gen'l Passenger and Ticket Agent.

ALLEGHENY VALLEY RAILROAD.

NEW LINE TO BUFFALO THROUGH THE OIL REGIONS.

On and after MONDAY, Dec. 5th, 1870, 3 through Trains daily (except Sunday) will leave and arrive at Union Depot for Franklin, Oil City, Buffalo, and all points in the Oil Regions.

	LEAVE PITTSBURGH.	ARRIVE AT PITTSBURGH.
Day Express	7:20 A. M.	9:00 P. M.
Night Express	8:40 P. M.	6:25 A. M.
Way Passenger	9:35 A. M.	
Mail Train		5:30 P. M.
Brady's Bend Acc'n	3:05 P. M.	10:20 A. M.
Soda Works	6:10 P. M.	8:35 A. M.
1st Hulton	6:45 A. M.	6:35 A. M.
2d Hulton	4:45 P. M.	9:05 A. M.
3d Hulton	11:00 P. M.	7:20 P. M.
Parnassus	11:40 A. M.	2:30 P. M.

Church train to and from Hulton (Sunday) arrives at 10:10 A. M. and leaves at 1:00 P. M.

Express trains stop only at principal points. Accommodation trains stop at all stations.

Pullman's Drawing Room Sleeping Cars on Night Express Trains, both ways between Pittsburgh and Corry.

Through Coaches on Day Express Trains between Pittsburgh and Brocter's.

J. J. LAWRENCE, Gen'l Sup't.

HOME NEWS.

A Bookkeeper is advertised for in this morning's paper under wants.

Mayor Brush disposed of thirty-two drunks at his levee yesterday morning.

Letters in this office for "M. C—" "M. T. Chambermaid," "L. M." "K. W." Grocer, "P. D." The persons to whom these letters were addressed will please call and take them away.

To-day, May 15th, Mr. Paul Hugus Hacke, corner of Fifth avenue and Market street, will offer for sale the largest as well as handsomest stock of Silks ever brought to this city. See his card, on first page, for inducements.

False Pretences.—On Saturday William H. Doud preferred a charge of false pretences before Alderman Strain against John Willart. He alleges that the accused represented that he was the owner of two horses and a wagon and by that means obtained feed to the amount of $20. A warrant was issued.

Ormsby Prize Ring.—Justice Lindsay of Ormsby, on Saturday sent Patrick Brennan to the Work House for thirty days for engaging in a prize fight in that borough with Patrick McDonald, who has not been arrested.

Tom Harrington and William Fitzgerald were each fined ten dollars and costs by Justice Smalsey for a similar offence.

Paid for His Frolic.—On Friday night Officer Cook arrested a strapping female who was acting in a rather queer manner on Fifth avenue. She was taken to the lock-up and on examination proved to be a man, who gave his name as George Johnston. At the hearing next morning the Mayor fined him five dollars and costs, which he paid and was dismissed.

Robbery.—On Saturday evening some person or persons entered the room of John Murray in his boarding house, near Moorhead's rolling mill, Fourteenth ward, and stole clothing therefrom valued at $45. An old man named Lewis was arrested on suspicion of being concerned in the the theft. He was placed in the lock-up, and will have a hearing this morning. Officer Rivers is on the track of another person, who is also suspected of having been a party to the theft.

Railroad Accident—Severely Hurt.

Nelson Rumsey, a brakesman on the Connellsville Railroad, met with a very serious accident on Saturday evening. He was standing on the platform and when near McKeesport he lost his balance and fell off the car. His injuries are so serious that it is feared he will not recover. He was taken to McKeesport where he is receiving every attention that his case demands.

Mr. R. is a sober and industrious young man and resides with his mother on Pine alley, Allegheny City.

Justice Heisel.

Frank Walker made oath before Justice Heisel, of East Birmingham, on Saturday charging William Nunz with going into his house and locking him (the proprietor) out.

Josephine Brandy entered a charge of disorderly conduct before the same magistrate against Jeremiah Drumm. She alleges that the accused called her bad names, caught her by the neck and chocked her.

A charge of disorderly conduct against Geo. Karmbauer was preferred by Kate Lambertine before the same Justice.

Warrants were issued in all the above cases.

Obituary.

It is with sincere sorrow that we announce this morning the death of Mr. Andrew M. Toner, which occurred yesterday at his late home, No. 162 River avenue, Allegheny. Deceased was a young man, just entering upon the staid responsibilities of manhood, and endowed with capacities from which all who knew him augured a future bright with promise. He was widely known in the community, and to many the news of his demise, will bring heartfelt sadness and pain.

His funeral will take place to-morrow afternoon at two o'clock, from No. 162 River avenue.

Runaway in Allegheny.

On Saturday morning a horse attached to a buggy, being driven by a gentleman along Irwin avenue, took fright and ran away. The driver used every exertion to stop him without success, and was finally thrown out by the upsetting of the vehicle, one of the wheels striking his head and knocking him senseless. He was picked up and carried into a house, and when brought to was found to be very little hurt. The buggy was entirely demolished, and the horse had one of his fore legs broken by becoming entangled in the wreck. We were unable to learn the name of the gentleman.

Col. Andrew Scott.

The voters of the Second City District, we understand, contemplate presenting the name of Col. Scott, to the nominating convention as a candidate for Assembly; We are not advised whether the Colonel has been consulted on the subject, but if he can be prevailed on to permit the use of his name, we would suppose his nomination and election would almost certainly follow. Col. Scott has been conspicuous for his able and faithful service in City Councils for the past 20 years. He would therefore easily and gracefully wear the Legislative armor and from the beginning prove himself a worthy representative of a worthy constituency.

Pleasant Occasion.

On Saturday evening a pleasant affair transpired, being the occasion of the presentation to Lieutenant Woods, of the Geary Dragoons, of a splendid sword, sash and belt by the employes of the Black Diamond Steel Works, where the Lieutenant is himself engaged. The meeting was a most happy one, Major Hancock presiding. Mr. Aaron Cozad made the presentation speech, the equipments being received by Lieutenant Thomas Matthews, formerly of Company F, Forty-sixth Pennsylvania Volunteers. Major Hancock, W. R. Ford, Esq., and others, also made speeches, and the affair passed off in the most pleasant manner. The sword, belt and sash were of the best material and cost $75. They were furnished by W. G. Dunseath, the well-known jeweler of Fifth avenue.

Pension Attorneys.

A new circular has just been issued by the Pension Bureau in relation to the fees to be paid to attorneys under contracts to obtain pensions from the Government. Under the act of Congress fixing the scale of fees for pension attorneys in cases of unusual labor, additional compensation may be received when the contract between the parties has been first approved by the U. S. Commissioner of Pensions. When this law went into effect, Commissioner Van Aernam issued a circular giving a scale of fees for the different classes of work at which he would approve contracts made between the attorneys and the claimants of pensions. This schedule has long been objected to as fixing too low a remuneration, and Acting Commissioner of Pensions Trevitt has modified the fees giving a compensation to the attorneys which is somewhat more liberal.

The Other Side.

EDITORS GAZETTE: In a local item in your paper of Saturday morning, in referring to the information made against me by Samuel Hastings, your reporter states that "Officer Swain was on a general rampage and desirous of fighting somebody, it did not matter much who, and meeting Mr. Hastings that he wantonly and maliciously struck him, &c." I feel that your reporter has unintentionally done me injustice in his report, as I was at the time on duty and quietly engaged in conversation with Mr. Hastings, who is a member of the Police Committee of the City Councils. Without provocation, he used towards me vulgar and abusive language, and repeated it for the purpose of forcing an assault, as the evidence before the Alderman showed, whose decision was both unjust and contrary to any legal ruling, and from which I have taken an appeal.

WASHINGTON SWAIN.

The Lincoln Club Opening.

This afternoon, at three o'clock, the rooms of the "Lincoln Club of Allegheny County" will be thrown open to visitors for inspection, and a general invitation is extended to all Republicans. They are located on the second floor of No. 66 Smithfield street, and consist of a large reception room or hall, with several small apartments for committee rooms, all of which have been fitted up in sumptuous style, with every convenience for a first-class club headquarters. The Committee having the work in charge have exercised great taste, and have admirably succeeded in making the rooms attractive and cheerful, while, at the same time, in finish and general arrangements the headquarters are exceedingly elegant and comfortable.

The opening this afternoon will take the form of an informal general meeting of Republicans, to which all who feel an interest in the club and the party in the county are invited.

Real Estate Transfers Filed Since Our Last Report.

John Brown to John Asmann, May 12, 1871; lots Nos. 8 and 9 in John Brown's plan of lots, borough of St. Clair $800
Joseph Berry to John Keenan, May 1, 1871; lot No. 24 in plan of the village of Johnstown, with buildings $1,200
Robert Sterritt to John Sterritt, May 2, 1871; lot 41x163¼ feet on Hemlock street, Third ward, Allegheny with buildings $3,000
Elizabeth H. Lecky to Patrick Isall, April 30, 1870; part of lot No. 12 in subdivision of Mt. Hope property, McClure township, with buildings $400
George Scheffler, executor, to Philip Grade, May 11, 1871; part of lots Nos. 35 and 36 in John Arthur's et al. plan, Sixth ward, Pittsburgh, with buildings $2,500
William Oxford, executor, to David Carmichael, December 21, 1870; 28x137 feet on Taylor street, Sixteenth ward, Pittsburgh, with buildings $1,200
John Stalter to Thomas Cooke, May 13, 1871; lots Nos. 18 and 19, in Franklin Baldwin's et al., plan, Borough of Braddocks $685
G. E. Warner to Nicholas Warner, April 14, 1871; lot of ground 25 feet on Main street, Allegheny city $400
Robert Ramsey, executor, to James Callery, May 8, 1871; 21x90 feet on East Common, Allegheny city, with buildings $4,500
Frederick Gwinner to John Harper, May 2, 1871; 44x100 feet, on Main street, borough of Sharpsburgh, with buildings $1,000

Amusements.

PITTSBURGH OPERA HOUSE.—Mr. and Mrs. Bandman, the celebrated tragedians, will not appear in "Narcisse" to-night as previously announced, owing to the fact that the manuscript of that piece has not arrived. "Othello," a character in which Mr. Bandman enjoys a high reputation, has been substituted, and we look to see a crowded and appreciative audience.

TRIMBLE'S VARIETIES.—Manager Aims has added several new and brilliant stars to his already resplendent galaxy. Unusual and constantly changing attractions will be presented throughout the week. On Thursday night the patrons of the house should not forget that Mr. Aims, the manager, takes a benefit. As a slight return for the incessant and successful effort he has made to cater for the entertainment of amusement seekers, let the occasion be indeed a benefit.

ACADEMY OF MUSIC.—The success of Carncross & Dixey's Minstrels last week has been one of the greatest ever known in this city, and deservedly, too, for never has a better troupe appeared here. Each individual member of the company, in his line, is A No. 1. Two better singers than Carncross and Dixey are rarely to be met with in any combination; the song and dance man, Bobby Newcomb, is a *rara avis* in his specialty, and the banjoist, Eph. Horn, Jr., picks music of a sweeter kind than we have ever before heard brought from that essentially negro instrument. A new local extravaganza, entitled the "License Court" will be produced to-night.

TRIUMPH OF AN INVENTOR.

The Roberts' Torpedo Case Finally Settled—Five Years of Litigation—And success at Last—Judge Strong's Able Opinion—Points of the Case and its Importance—Excitement in the Oil Regions.

The absorbing topic of conversation among the oil men on Saturday, and many of the legal fraternity too, was the decision in the great oil well torpedo case, which for the last five years has engaged the attention of one after another, and finally settled down in the U. S. Circuit Court. As it is, the record of the toils and trials and vexations of an inventor, crowned at last with his triumph—an intermingling of the romance and reality connected with the establishment of the validity of a patent—a slight

HISTORY OF THE CASE

may not be uninteresting, and will further enable our readers to understand its great importance.

In December, 1862, E. A. L. Roberts, then Lieutenant-Colonel of the Twenty-eighth New Jersey Regiment in the army of the Potomac, conceived the idea of opening up the veins and crevices of the oil-bearing rock by exploding an elongated shell or torpedo therein. He thereupon made drawings of his invention while lying in camp. Returning home in 1863, he found himself in serious financial embarrassment caused by the mismanagement of those to whom he had entrusted his business while in the army. This, together with the excitement caused by the New York riots in the surrender of 1864, in the suppression of which he rendered efficient assistance, prevented his making application for a patent at that time. Afterwards he re-entered the army, spent one hundred days there, and having served out his time, returned home prostrated with the "chills and fever."

During the latter part of October, 1864, he took his drawings of December, 1862, to C. Hertzberg, of Cooper Institute, New York, who made for him the drawing, which, with his application for a patent, he filed in the Patent Office on the eighteenth of November, 1864.

TWO YEARS OF "RED TAPE."

It was on this application that two years afterward, on November 29, 1866, he obtained a patent.

About the first of the same month he got six torpedoes made by Elijah Brady, of New York, and prepared to start with them to the Pennsylvania oil regions, but was delayed by sickness until the first week in January, 1865.

Upon arriving at Titusville he found the well owners were almost universally skeptical as to the utility of his invention, and it was not until the 21st of January that he could get an opportunity to prove its practicability.

THE FIRST SUCCESS.

On that day he exploded one of his six torpedoes in the Ladies' Well, a short distance from Titusville, with beneficial results. This success secured other opportunities of using the torpedoes and soon everybody admitted the utility of the invention. Torpedoes were used by the hundreds with results, the value of which could be estimated only by millions of dollars.

His success resulted as usual in his claims being contested by real or imaginary inventors. While his application for a patent was pending two other applications for the same invention were filed—one by Parker and the other by Morrison. In February, 1865, two additional aplications were filed; in May an interference was declared between the five applicants, and after testimony had been taken, in September, 1865, a decision was given in favor of Roberts. An appeal was made, but the Board of Examiners in Chief, after a rehearing, affirmed the decision. In January, 1866, another appeal was taken, and on the 7th of June, 1866, the Commissioners of Patents rendered a third decision

IN FAVOR OF ROBERTS.

The case was then carried to the Supreme Court of the District of Columbia, when Judge Carter affirmed the decision of the Commissioner, awarding the patent to Roberts. It was accordingly issued November 20th 1866.

To go back now to 1865; the application above referred to concerning only the mode of operation, Mr. Roberts on April 25th, 1865, obtained a new patent for the peculiar mechanical construction of his torpedo.

Then commenced the litigation; immediately following his success in 1865, numerous infringers appeared and to protect himself, Mr. Roberts had to enter the Courts. He commenced this in October 1866, in the United States Court for the Western District of Pennsylvania, and proceeded by bills of equity against three of the infringers,—moving for a preliminary injunction against them. In December 1867, after the three cases had been heard, and the argument of the Court finally declared the patent valid, decrees were awarded and the injunctions made perpetual.

MORE INFRINGEMENTS.

The patent of November 20, 1866 having been issued in the meantime and the infringements continuing, new bills were filed against two of the infringers who failed to answer and again Roberts obtained a decree; under the same patent bills were filed, also against two other infringers, Van Vleit and Munson,—and from this dates the incipiency of the case decided on Saturday. Roberts obtained decrees against both parties but Munson disregarded the injunction. He had been, an agent of Roberts, but had been discharged. Two of the torpedoes which he had gotten from Roberts while in his (Roberts) employ, he put in for one Wm. Reed, who had some time before made some experiments with torpedoes in the fall of 1867. Under cover of Reed's experiments he undertook to organize the host of infringers into a company under the name of the "Reed Torpedo Company."

PATENT WAYS "PECULIAR."

For this purpose he purchased from Reed his pretence of claim to a patent, the consideration for which purchase was the two torpedos last referred to, got Reed to sign a blank application for a patent, which blank he filled up with a description of his own, filed the application in the patent office, January 11th, 1868, and requested an interference with Robert's patent of November 20, 1866. The interference was declared and testimony was taken at length. Roberts appealed from the first decision, which was adverse, and on hearing before the Board of Examiners in Chief, he (Roberts) was declared to be the first inventor. On appeal being taken the Commissioner of Patents on 3d of November, 1869, affirmed the decision.

And now to return to the proceedings in Court. In order that Reed's claims might be

TESTED IN COURT,

A bill against the Reed Torpedo Company was filed in June 16th, 1868—this of course being before the matter had been decided in the Patent Office. This suit dragged its slow length along and gave rise to a sharp legal practices being transferred from one Court to another and original members of the Company selling out to others and thus causing delay in the litigation. The defendants when they found that an injunction was to be served upon them would sell out and thus the dodge was kept up. Finally the matter was decided again in favor of Roberts by Judge Grier of the Supreme Court.

But the infringers were not satisfied, and in February, 1870, took a new turn and claimed that the "torpedo" was not patentable, and if it was, that the same method had been in use in this country and in other countries. Roberts saw that this was to be

HIS LAST FIGHT

in all probability, and he at once instituted suits against James Dickey and others trading as the "Giant Torpedo Company." He obtained a preliminary injunction against them, and testimony was then taken in the case at length. This was the case, then, which was finally decided on Saturday by a decree of the Court that will probably free Roberts hereafter and enable him to enjoy the fruits of his genius.

Roberts was represented by Bakewell A. Christy, Col. J. R. Kerr and Hon. H. B. Swoope, of Pittsburgh, with George Harding, of Philadelphia. The Oil Producers' Association, which contested the patent, was represented by George Shiras, Esq., of Pittsburgh, and Judge Keller and C. M. Blake, of New York.

The decision of the case was looked to with much interest among the oil dealers—so much so that as soon as it had been announced, the opinion was telegraphed in full to Titusville and its main features bulletined.

OPINION OF JUDGE STRONG.

Justice Strong of the Supreme Court of the United States, sitting with Judge McKennan in the Circuit Court delivered the opinion of which the following is an abstract:

This case is a bill in equity for an account, and for an injunction against further infringement of a patent dated November 20, 1866, granted by the United States to the complainant for "a new and useful method of increasing the capacity of oil wells, and restoring oil wells that have become clogged to productiveness. The defence is rested not so much upon a denial that the patent has been infringed upon by the defendant, as upon the assertion that the the invention described is not a proper subject for a patent, or that (if it is) the patent is invalid for want of novelty in the invention.

Such being the nature of the defence, a clear apprehension of what was

PRECISELY THE THING PATENTED

is indispensable to a correct understanding of the merits of the controversy between the parties. The theory of the patentee is that petroleum, or oil taken from oil wells, is, before it is removed, contained in seams or crevices usually in the second or third strata of sandstone, or other rock abounding in the oil regions. These seams or crevices, being of different dimensions, and irregularly located, there is danger that a well sunk through the oil bearing rock may not touch any of them, and thus that it may not obtain oil, though it may pass very near the crevices. Or it may in its passage downward touch only small seams or make small apertures into neighboring crevices containing oil, in either of which cases the seams or the apertures are liable to become clogged by substances in the well or in the oil. The wells are usually, or frequently, eight or nine hundred feet deep, with a diameter of from three to six inches. Owing to the smallness of their diameter they may be in close proximity to deposits of oil without communicating with them perfectly, or at all, and consequently the supply gathered must be much less than it would be if they opened more seams, or if the apertures into the crevices which they do open were cleared or enlarged. Modes of removing stoppages of flow into the wells were known when the patentee claims to have made his invention, and two are described in his specifications. One was enlarging the diameter of the well, which, of course, was attended with much expense, and another was forcing air down to the bottom and allowing it to escape suddenly. Neither of these methods, hower, were effective to open passages to all deposits that were not intersected by the bore of the well, or were not connected therewith by existing fissures in the rocks.

* * * * * * * *

That the art or method of operation does work out beneficial results; that it is efficient to remove obstructions to the flow of oil into oil wells which, having been worked, have almost ceased to be productive, and that it

OPENS NEW SOURCES OF SUPPLY,

is very satisfactorily established by the evidence that has been taken in the case. It is proof that these effects have been produced in most instances in which the Roberts invention has been used, and it has been used in a great number of wells since the first experiment was made in the "Ladies' well," in January, 1865. Paraffine in semi-fluid form has come from the wells after the use of the process, thus demonstrating its efficiency in the removal of obstructions. In some cases the product of the wells has been increased more than twenty fold, and so manifestly useful has the invention proved that though at first it was regarded with distrust and with much apprehension that its application would destroy the wells, it soon came into general favor. In fact it has proved a great public benefit. There is evidence in the case that it has largely increased the production of oil in the oil producing regions of Pennsylvania. As might be expected since the trials of the complainant's invention have demonstrated its usefulness, repeated attempts have been made by others to effect the same result by similar processes. This is the common fate of meritorious inventions.

Now that such an invention, if it was novel, was proper subject for a patent, hardly admits of question. It was a new and useful art. It was a process combining instrumentalities before known, but not employed together, to accomplish a new and useful result.

* * * * * * * *

The next inquiry that demands attention is whether the defendant has succeeded in showing the patent to be invalid for want of

NOVELTY OF THE INVENTION.

It is hardly necessary to remark that the patent itself makes a *prima facie* case in favor of the complainant that he was the first inventor. The reasons for such a deduction have often been stated, and they are so obvious that it would be superfluous to restate them. Curtis on patents, section 472. Philadelphia and Trenton Railroad Company is Stimpson 14, Peters 458. The burden of proof is therefore upon him who denies the validity of the patent on the ground that the invention claimed by the patentee was not new, to establish his allegation by satisfactory and preponderating evidence, and this the defendant has attempted in the present case.

The Judge here gives an exhaustive review of the evidence in the part of the defendants, and concludes as follows:

There can be no better evidence that all the trials of blasting in oil wells which were made before the complainant obtained his patent were immature and inadequate to the accomplishment of the desired result, than the fact that they were abandoned, and the patentee's method was restored to so soon as it became known. Certain it is a

GREAT BOON HAS BEEN GIVEN

to the oil-producing regions. Something has been conceived and worked out that has immensely increased production. It is confessedly embodied in this patentee's method, and it is described in his patent. Certain it is that no one of the experimenters whose testimony we have considered can say, "I did it." No other than Roberts can say "I devised and practised that which has conferred these benefits upon the public." "I perfected this invention." There is no evidence in the case sufficient to repel the presumption arising from the patent itself that Roberts was the first inventor of the method secured to him.

It remains only to inquire whether the defendant is proved to have been guilty of an infringement. In regard to this there is hardly any contest. The infringement is established by the admission of the defendant, and by the testimony of William B. Roberts. The complainant is therefore entitled to a perpetual injunction and to a decree for an account.

Let a decree be prepared accordingly.

THE APPEALED CASES.

The Saloon Keepers and Temperance Men Again in Court—The Powers of the License Board—The Jurisdiction of the Quarter Sessions—Cases Decided.

Saturday morning, in the Court of Quarter Sessions, Judge Collier presiding, "the appealed cases" of the saloon keepers came up for hearing. The cases had been appealed by Messrs. Bruce, Negley and Jennings, counsel for the temperance men. The Court room was crowded behind the bar with attorneys, and outside the railings with spectators.

The case of Mr. Berry, of South Pittsburgh, was first called up. Objection to granting him a license had been made for want of "accommodations."

Mr. W. D. Moore then, on behalf of Berry and several others, presented a plea, in which, after denying all the allegations, they claimed that the Court of Quarter Sessions had no jurisdiction in the case, as the power to grant or refuse licenses had been conferred upon the License Board and that the Quarter Sessions had nothing to do with the matter—the decision of the License Board being final.

Mr. Moore argued the point at length and claimed when a license had once been granted by the Board that ended the matter—unless they desired to review the case; but their action could not be appealed to the Court of Quarter Sessions. The authority formerly vested in the judges had been transferred to the License Board.

Mr. Negley contended that the law merely transferred the power of granting or refusing licenses to the Board of Commissioners, but the Judges of the Court of Quarter Sessions had the right to entertain appeals and had exercised the right.

After some further argument on the part of counsel, Judge Collier stated that the question of jurisdiction raised was an important one, and before giving a decision he desired to consult with his colleagues. He had his own opinion, however. He thought the law of 1856 established a license system, and the only change that had been made was the transferring of the power of granting and refusing licenses to the Commissioners, without touching the legal powers. He held that an appeal to the Court of Quarter Sessions would lie.

The Court then announced that the cases to which the plea filed applied would be held over until next Saturday, at which time a decision on the points raised would be rendered.

The remaining cases were taken up and disposed of as follows:

Theodore Smith West Pittsburgh; objection selling on Sunday and to minors. Appeal sustained.

Lorenzo Quetter, Seventh ward, Allegheny; An alien—having resided in this country but three years. Appeal sustained.

The next case taken up was that of Amos Sarber, of Elizabeth, to whom a tavern license had been granted. Exceptions were taken on the grounds that the house was disorderly, that it was not necessary, and that an agreement had been made between the applicant and his father, Daniel Sarber, so that a license could be obtained, the father having withdrawn his application because of the opposition manifested.

Quite a number of witnesses were called by Mr. Negley to establish exceptions.

Mr. Moreland, counsel for the applicant, called Messrs. Coursin, Tower, Shaffer, Daniel Sarber, Elijah Pancoast, and others.

After hearing the testimony, Judge Collier stated that he would not outrage the community by granting the license to the applicant while his father resided and made his home in the house, as it was fair to infer that the transfer of the business was made simply for the purpose of securing a license. If the father would leave the house with his family the Court might give the case further consideration, but for the present license would be refused.

The cases of Thomas Durkin, of the First ward, Pittsburgh, and E. Reineman & Son, Second ward, Pittsburgh, were heard, and the Court sustained the exceptions.

OIL EXCHANGE ORGANIZED.

Oil City Not to Be Behind Other Commercial Centres.

Some days ago the initiatory steps were taken, and to-day the final arrangement will be made for the establishment of an Oil Exchange at Oil City. The magnitude of the daily transactions in oil, frequently amounting to half a million of dollars, which heretofore have been carried on almost exclusively on the streets, has made this enterprise an imperative necessity.

Below we publish the names of the subscribers, from which it will be seen that the principal oil dealers are represented.

BURGLARIES SATURDAY NIGHT.

A Confectionary and the Office of the Post Entered.

Dummett's Confectionary Store on Wood street, between Fourth Avenue and Diamond street, was entered on Saturday night and between twenty and thirty dollars in nickels carried off. Entrance was effected by raising up the grating under the show window and passing thence through the cellar up into the store. There is no clue to the thieves.

The counting room of the *Post* office was also entered some time during Saturday night, entrance having been effected by prying open the door with a cold chisel or some similar instrument. The thieves pried open a number of drawers in the desks about the office, but it is thought they got nothing. In one of the drawers there was an envelope containing the week's wages of one of the female compositors but this they passed by, thinking, doubtless that it contained nothing of value. An unsuccessful attempt was made at the same time to force open the Stationary store of Myers Schoyer & Co., in the *Post* Building.

The Methodist Book Depository on the corner of Virgin alley and Smithfield street was also entered. This was done by prying open the rear door. The thieves do not seem to have found much better here than they did at the office of the *Post*, nothing being missed but a morocco porte-monnaie. It is evident that these burglaries were perpetrated by the same gang, but unless they can make it pay better than it has done in these instances we would advise them to quit the perilous business.

FOUND DEAD IN BED.

Excessive Use of Whisky the Cause.

An inquest was held by Coroner West on Saturday evening, on the body of Henry Louth a German who was found dead at his house on Second avenue a short distance above Dam No. 1. It appeared from the evidence before the jury that the deceased had been drinking very hard for eighteen months, and had compelled his wife to leave the house on several occasions by his conduct while under the influence of liquor. His wife went away on Monday and stopped with a friend of her's on Second avenue, near Grant and did not return to her home until Saturday morning to find her husband dead in bed. He was last seen on Tuesday evening, and was in a beastly state of intoxication. A *post mortem* examination was held by Dr. Addison Arthurs who gave it as his opinion that the deceased died of congestion of the brain, resulting from excessive drink. The body was somewhat decomposed. The doctor was of the opinion that he had not taken any posion, although some bottles containing poisonous stuff were setting near by the bed in which he died. The bottles apparently were not opened. Deceased was a native of Germany, but he lived in this country for seventeen years. He was forty-six years of age and leaves a wife and one child.

A FIENDISH WIFE.

A Husband Goes to Sleep and Wakes up to Find His Wife Pouring Vitriol on His Face.

Mr. Domphey appeared before Mayor Callow Saturday evening and charged his wife, Alice Domphey with having thrown vitriol on his face. The parties reside on River Avenue near the Gas Works. The prosecutor, who is employed at the Gas Works states that the accused has been on a spree for some time past, and that on Saturday evening when he returned from his work, he found that his supper was not ready. While waiting for it he laid down and went to sleep and was awakened by a burning sensation in his face. On looking up he discovered his wife standing over him with a vial in her hand out of which she was pouring a liquid on to his face and arm, which on examination proved to be vitriol. Fortunately none of it went into his eyes. The accused was arested and is now in the Allegheny lock-up awaiting a hearing.

DRINKING SALOON ROW.

A Man has his Face Completely Mashed with a Tumbler.

A difficulty occured in a drinking saloon on Fifth avenue extension, which resulted in injuries to one of the parties concerned that will disfigure him for life. The facts as nearly as we could learn them are these: Two men named respectively William Patch and "Boob" Snyder were standing at the bar drinking, when, a dispute arising, Snyder picked up his tumbler and dashed it into Patch's face, lacerating it fearfully. The wounded man was taken to the office of Dr. Taylor, near at hand, who dressed his injuries, and states that he will not be able to speak for perhaps a month, and possibly may not recover at all.

Snyder was arrested and committed to the lock-up, where he lies, awaiting the result of Patch's injuries.

BREVITIES.

PLENTY—Strawberries.

SAIL BOATS out on the Allegheny yesterday.

LIVERY STABLES did a good business yesterday.

WM. B. NEGLEY, Esq., is a candidate for Judge.

THE *Freiheits Freund* is getting a new press from Hoe.

MAYOR BRUSH, it is said, will be a candidate for Sheriff.

STRAWBERRY FESTIVALS will be the rage for the next month.

TROY HILL BEER GARDENS did a good business yesterday.

THE inclined railway up Coal Hill was well patronized yesterday.

THE Chartiers Valley Railroad opens by a free excursion on Thursday next.

NEW TOMATOES, potatoes and corn have made their appearance in market.

THE Republican State Convention will assemble at Harrisburg on Wednesday.

DELEGATES to the State Convention, to be held at Harrisburg, will leave to-night.

A YOUNG man at Freehold, New Jersey, was fined $30 for kissing a girl on the street.

CONCRETE pavement is being laid around the Humboldt monument in the Allegheny Park.

A NEW CAR made its appearence on the Oakland Passenger Railway yesterday. We hope the improvement will continue.

CAPT. KREPPS, late of the *Mail*, is running the Saw Mill Run ferry boats. He deserves, and doubtless will win success.

A SPECIAL meeting of Allegheny Councils will be held to-morrow (Tuesday) evening to consider the Federal street extension act.

THERE are as many saloons in blast now as ever. For every one that failed under the law, a new one has sprung up in its place.

A MEETING was held in New York last Thursday evening to raise money for the starving miners in the coal regions of this State.

A SAND HEAP on Sixth avenue, above Smithfield, kicks up a great dust when the wind blows, and will account for an inundation when the rain comes.

"A NEW broom sweeps clean." We commend the U. S. Court to a new broom. The hall and stairway are in contempt of Court shamefully dirty—*nisi*.

THE first story of the new English Lutheran church on Stockton avenue is about finished and work is progressing on the second. It is to have a spire in front.

LOAFERS WERE out in full force on Ohio street, at the corner of Chestnut street and Madison avenue; Allegheny, yesterday afternoon, smoking, spitting and swearing.

THE REPRESENTATIVES of the various lodges of Odd Fellows in this District to the Grand Lodge of Pennsylvania, will leave to-day for Harrisburg, to attend the annual session.

THERE will be a special meeting of the Executive Committee of the G. A. R. at their rooms at No. 104 Fourth Avenue this evening, to make final arrangments for Decoration Day.

A NEW Savings Bank, with N. P. Sawyer, Esq., as President, we understand is about to go into operation. Its location will be on Smithfield street, which is certainly a good move.

JUDGE STOWE says it is his duty to administer the law as he finds it, and is decidedly in favor of any legislation that will give him the power to keep down rowdyism. The law is certainly defective.

THE Young Men's Catholic Library and reading room was formally re-opened at their new rooms in the basement of St. Paul's cathedral last night. Appropriate addresses were delivered by Revs. Fathers Wall and Hickey.

FOR sale to the highest bidder, who will at once remove them—a pile of brickbats and sundry old barrels and other debris; can be seen at all hours on Park Way, near Federal street, west side. Apply to the city authorities, Allegheny.

LETTERS have been received from General McClellan and Mr. Roebling, stating that they will be in this city about the latter part of this month to view the site and fix the location of the Fifth avenue bridge from Bluff street to Birmingham.

THE DELEGATES to the Pennsylvania Reserves re-union at Philadelphia, will meet at the Union Depot, this afternoon at 3:30 P. M. Tickets and white caps, the distinguishing mark of the delegates, can be had from Mr. Ed. Abel at the *Commercial* office.

ON SATURDAY, Mr. John Hamill, foreman of the Duquesne, Fire Engine No 3, being about to embark in other business, handed in his resignation. Mr. Hamill has always been an energetic and capable fireman and we wish him the largest measure of success in whatever he may undertake.

GENEROUS CITY.—Allegheny City, not having use for Park Way, Gay and Middle alleys, corner of Robinson and Anderson, and many other streets and parts of streets, permits them to be used by private parties for lumber yards, for depots of dismantled wagons, carts, wheelbarrows, &c. How unsightly!

IN OUR advertising columns will be found a formal announcement that Joseph Dilworth, Esq., will be urged by his friends, for the nomination of County Commissioner, before the Republican Convention, to assemble on June 6th. If Mr. Dilworth should receive the nomination and be elected, he will make a capital officer.

THE Janesville, Wisconsin, *Gazette* says that a letter received by Mrs. Patten informs her that Mr. Patten, who had been missing several months, was at Salem, Ohio, a week ago. He remained at that place some ten days, and when he left, intended to go to Pittsburgh. He is reported as being deranged, apparently and had the appearence of having undergone trouble and hardship.

IN MEMORIAM.

The Fearless Deck Hand and the Quadruped.

One of the "youths of education and a taste for composition" who is frienziedly anxious to fill the vacancy in our reportorial corps, presents the following exquisite, blending of tender pathos and poesy, delicate fancy and fact, being a true description of a scene witnessed in one of his afternoon rambles on the Monongahela wharf. The gifted child of the Muses assures us that "to do it up" in that way is a matter of as much ease, to him, as gracefully descending from a log to the verdant sward, is to ordinary mortals. Our mild insinuation that we had a shadowy remembrance of having read the story or something *very* much like it elsewhere seemed so much to wound the feelings of the aspiring youth that we allowed our grave doubts to be dispelled by his solemn assertion that originality was one of his characteristics of which our readers may judge by his "trial piece," premising it with the remark that the other applicant fled in dismay when this effort of his opponent was read to him. It is

"THE STUBBORN MULE."

The mule stood on the steamers deck,
  The land he would not tread;
They pulled the halter round his neck,
  And cracked him o'er the head.

Yet firm and steadfast there he stood,
  As though formed for to rule;
A critter of heroic blood
  Was that there cussed mule.

They cussed and swore—he would not go,
  Until he felt inclined;
And though they showered blow on blow,
  He wouldn't change his mind.

The deck-hand to the shore then cried,
  "This here mule's bound to stay."
And still upon the critter's hide
  With lash they fired away.

His master from the shore replied—
  "The boat's about to sail;
As every other means you've tried,
  Suppose you twist his tail."

"It's likely that will make him stand."
  The deck hand brave, though pale
Approached with his outstretched hand
  To twist that there mule's tail.

There came a sudden kick behind!
  The man—oh! where was he?
Ask of the softly blowing wind,
  The fishes in the sea!

For a moment there was not a sound,
  As that mule winked his eye,
As though to ask of those around,
  "Now how is that for high?"

"Cut that there mule's throat right away,"
  The captain did command,
But the noblest critter killed that day
  Was the fearless, brave deck-hand.

St. Bridget's Fair, City Hall.

The following are the names of the successful competitors at the voting contests which closed at St. Bridget's Fair at City Hall on Saturday evening:

Table No. 1.—Mrs. McBride, Ferris and Garten.
Sewing Machine—Awarded to Mrs. James Carr, 893 majority.
Bureau—Mrs. Carson 95 majority.
Table No. 2.—Mrs. Burns.
Gold pin and chain—Miss Kate Herbert, 204 majority.
Tete-a-tete—Miss M. Donnelly.
Sword, sash and belt—Lieutenant. A. Kennedy, Co. B. Irish Infantry, 349 majority.
Table No. 3.—Misses Hassen and Keenan
Gold Ring—Miss M. A. M'Bride, 160 majority.
Table No. 4—Mrs. Hooper.
Cottage Set—Mrs. James Webb, 185 majority.
Card Basket—Miss Sarah Goffry, 23 majority.
Table No. 5.—Misses Maloney, Sweeney and Gatens.
Cushioned Chairs—Mrs. R. Keefe, 90 majority
Guitar—Mr. McScharffer, 17 majority.
Gold Ring—Miss E. Wall, 291 majority.
Refreshment Table.
Silver Butter Dish—Miss Mary Maguire, 1,450 majority.

Saturday we were shown through the silks that will be offered for sale by Paul Hugus Hacke on Monday, and can truthfully say that they are really beautiful. The ladies have now a splendid opportunity to get silk at twenty-five per cent. less than is usually offered. See his catalogue of prices on first page.

Waltham Watches!

Best assortment, and lowest prices in the city.

JOHN STEVENSON'S SON'S & CO.
93 Market street.

I Have been using Sawyer's Barber Soap for about nine years, and I have no hesitation in saying that it is the best shaving soap I have ever used. It is now used in our family almost exclusively as a toilet soap and gives entire satisfaction.

JOHN DOUGLAS,
Pastor 1st Reformed Church,
Pittsburgh, Pa.

The rare chance offered by Paul Hugus Hacke in silks, commencing to-day next, seldom takes place in this city. The ladies should all be on hand early, as first come, first served. These silks must be sold. They are all good, and selling at less than cost.

Watch Repairing!

If your watch is out of repair, take it to JOHN STEVENSON'S SONS, & CO.,
93 Market street.

Ocean Water Soap makes the finest suds for washing of any chemical compound known for cleansing and scouring glass, china, tin, brass or metal of any kind. It has no equal either as to quality or cheapness. Ask your grocer for it. tf.

Full and fine assortment of watches to be found, at JOHN STEVENSON'S SON'S & CO.,
93 Market ftreet.

For Sale—50 shares M. & M. National Bank. Enquire of GEORGE B. HILL,
Corner Wood street and Third avenue.

Our lady readers should be sure to visit the great sale of silk offered by Mr. Paul Hacke, corner of Fifth avenue and Market street. This grand sale commences to-day. An hour could be well spent in examining this stock, whether you wish to purchase or not.

MONEY TO LOAN.—Bonds Stock and Mortgages bought and sold by George B. Hill, corner of Wood street and Third avenue. tf.

Choice Greenhouse and Bedding Plants in great variety at the Oakland greenhouses of J. R. & A. Murdoch. MW&F

Resignation—Correspondence.

It will be observed by the annexed correspondence that General John N. Purviance, of Butler, Register in Bankruptcy for the Twenty-third district, has resigned the office owing to a pressure of other professional engagements. General Purviance, during the long term which he has held this most responsible office, attended faithfully and conscientiously to its duties, and his resignation will prove a great loss to the service. The following complimentary correspondence fully explains itself:

BUTLER, March 14, 1871.

Honorable Wilson McCandless L. L. D. Judge of the District Court of the United States for the Western District of Pennsylvania:

DEAR SIR:—I respectfully tender to you my resignation of the office of Register in Bankruptcy of the Twenty-third District of your Judicial District.

Allow me to express my grateful acknowledgements for the willing aid you at all times rendered me, when called upon, for advice in the discharge of my official duties.

Intricate legal questions frequently arose in the course of proceedings before me, and the advice which you so cheerfully and satisfactorily gave me facilitated my labors and rendered the discharge of official duties agreeable and pleasant. For it I beg you to accept my sincere thanks.

As I have an appointment for business in Bankruptcy on the 18th of next month, which, will require my attention on that day, and some few days thereafter. I would prefer, should it meet your approbation, that my resignation should not take effect until the first of May next.

I have the honor to be,
With the greatest respect,
Your obedient servant,
JOHN N. PURVIANCE.

PITTSBURGH, May 6, 1871.

Hon. John N. Purviance, Register in Bankruptcy for the Twenty-third District of Pennsylvania.

DEAR SIR: I duly received your letter resigning the office of Register in Bankruptcy, but have been too unwell to acknowledge its receipt.

I regret very much that your professional engagements demanded this step upon your part, for experienced Registers like yourself are great helps to the District Judge in the discharge of his laborious official duties.

During the years you have performed the functions of the office which you now resign, you have done so with marked ability, and a proper conception of the responsibilities of the position. With good Registers, attentive to their duties and in harmony with the Judge, the bankrupt law can be administered with advantage to both debtor and creditor; whereas an incompetent Register is an incubus upon its administration and increases the anxieties of the Judge, upon whom eventually rests the responsibility of decrees.

I shall take an early opportunity to notify the Chief Justice of the Supreme Court of the United States of your resignation.

Thanking you for your official assistance heretofore, I have the honor to be,
Very respectfully,
Your obedient servant,
WILSON McCANDLESS,
U. S. District Judge.

Will Open on Tuesday,

Two cases black Silks at two dollars—a great bargain.

Also, one case of very superior Japanese Silks, just landed from steamer, and only shown at

WM. SEMPLE'S,
165, 167 and 169 Federal street, Allegheny.

Watches! Watches!

For ladies watches, go to
JOHN STEVENSON'S SONS & CO.,
93 Market street.

LITERATURE, MUSIC AND ART.

THE poet Swinburne has quite recovered from his recent indisposition.

A SECOND edition of Dr. Ginsburg's book on the Moabite Stone is in preparation, with additions to the present time.

PROF. T. HEWITT KEY is still engaged in the preparation of his Latin Dictionary, which has occupied him for many years.

MR. HENRY KINGSLEY, after an experience of a year and a half, has retired from the editorship of the Edinburgh *Daily Review*.

GREELEY sent Mark Twain a copy of his "*What I Know*," and wrote on the fly-leaf, "To Mark Twain, Buffalo; who knows even less about my farming than does—Horace Greeley."

THERE is a fair prospect of the establishment of a Celtic Professorship in Edinburgh University. Towards the endowment one gentleman has offered one thousand pounds.

IN Scotland an illustrated satirical journal will appear this month, under the title of the *Dawn*. It will be published simultaneously in Edinburgh and Glasgow, on the first of each month.

MAURICE SAND, Madame Dudevant's son, is finishing a book, "The Shame of France," which is eagerly looked for abroad, as it is said to contain much of the secret history of the Second Empire.

THERE are some curious coincidences in the title of books; W. Stuart Trenche's new story of Irish life is called "Ierne;" Mrs. Ames' new novel is "Eirene," and a tale lately published by the Lippincotts is "Irene."

AN amusing album of caricatures has been published at Berlin, under the title of "Les Soldats peints par Eux-memes: types Francais." The sketches are from the pencil of one of the French prisoners, whose name is not given.

A WORK, said to be founded on information of an exclusive nature, especially with regard to the history of Metz, before and during the siege, is spoken of as being on the point of appearing. Its title is "The Fall of the Second Empire; or, Romance and Reality of Imperial France."

AUGUSTUS MAGUET was the chief of the twenty or thirty prolific writers who, in conjunction with Alexander Dumas, set up a grand manufacture of literature in Paris at the height of the great romancer's popularity. There those facile scribes turned out stories, comedies, sketches, and adventures as the Springfield armory turns out muskets, and their wares met with quite as ready a sale.

THE unique copy in the Cambridge University Library of Caxton's print of Chaucer's "Parlement of Foules" is to be reprinted as one of the nine parallel texts of that poem which the Chaucer Society expects to issue next month. Mr. S. Christie-Miller, of Britwell House, has also consented to allow his unique copy of Julian Notary's print of Chaucer's "Complaint of Mars" to be printed as one of the Society's six parallel texts of that poem.

AN extinct Australian animal, known only by its skull and teeth, named from them by Owen, and supposed by its original describer to have been one of the most destructive beasts of prey that ever lived, formed the subject of a recent lecture at the Royal College of Surgeons, London, by Professor Flower, the well-known comparative anatomist. He argued against the view that the beast was of a terribly predatory nature, but said that it could not be classed with herbivorous animals, and that its teeth were of so peculiar a character that it was impossible to deduce from them its mode of life.

A CURIOSITY in modern literature is the work of Prof. Julius Richter, just published at Berlin, entitled "Greek and Latin Songs," and dedicated to Bismarck. The collection opens with a number of musical Latin distiches and a Greek Ode to Bismarck. After which come Greek translations of some of the shorter and more popular of Goethe's and Heine's "Lieder." The "Night Song" of the former and Heine's "I know not what it means," said to read delightfully in Greek and the whole is strong proof of the linguistic attainments as well as the refined taste and musical ear of Richter.

POWERS, the sculptor, writes from Florence to say that Mr. Demas Barnes, of New York, misrepresented him in saying that he praised Mr. Gould and his statue of the "West Wind." He closes his letter, which appears in the New York *Evening Post*, in these words: I would not trouble you were it not for the mischievous inference to be drawn from the words of Mr. Barnes, as reported, namely: That I have retired and am afraid to risk my reputation by the issue of any new work. Secondly—That I have endorsed the high estimate Mr Barnes appears to entertain of Mr. Gould. There is not a word of truth in all this. But I pray to be understood that I have expressed no opinion whatever in regard to Mr. Gould or his works.

FEW American authors have received a more prompt and cordial recognition abroad than Dr. John W. Draper, whose "History of the Intellectual Development of Europe" has been reprinted in London, while translations have appeared in Russian, Italian, French, and German. Translations of his "History of the Civil War in America" are now in preparation in French, German, and Russian, and the Longmans also announce an English edition. It is a singular fact that, with the exception of "Uncle Tom's Cabin," Dr. Draper's work is the only book by an American author which has attained the honor of translation into Russian, though versions of some of Longfellow's shorter pomes have appeared in that language.

MADAME SCHWARTZ, *nee* Birath, the popular Swedish novelist, was born in 1819. Her father, a merchant of that place, dying, left her, at an early age, in the care of a relative, under whose direction she received an excellent education. Manifesting a strong love for art, she went to Stockholm to study painting; but her hope of attaining distinction as an artist was summarily blighted by the interposition of Cupid. In 1839 she married Professor Gustave Magnus Schwartz, an eminent physiologist. Subsequently she turned her attention to literature; but her husband was sternly opposed to her public cultivation of it, and for a long time refused to permit her to appear as an author. Her first book, "The Preface," was published in Stockholm, in 1851, under the initials of "M. S. S." But after the death of her husband, in 1858, she threw off all disguise and since that time has written over forty books, which have been published under her full name.

THE REPORT

Of the Department of Agriculture for March and April

Says of the condition of cattle: "Pennsylvania reports as follows: 'Not so good as usual, owing to scarcity of feed last fall, in Wyoming county; 'good condition when properly cared for,' in Beaver; 'excellent,' with some exceptions, in Berks; 'poor,' not having recovered from the effects of drought last fall, in Susquehanna; 'good,' in Bradford, Somerset, Washington, Perry, Clinton, Adams, Warren, Montgomery, Union, Juniata, Greene, Chester; 'average,' Elk, Westmoreland; 'better than average,' Cambria, Franklin, Cumberland, (better than for many years), Dauphin, Delaware, Lawrence, Lebanon, Tioga, Fulton, Erie, Clearfield, Crawford, Fayette; 'very good' in Cambria, York, Armstrong, Sullivan; and in Butler 'remarkably good, the late fall pasture, with abundance of corn and fodder, compensating for inferior quality of hay.'"

Of the condition of winter grain it says: "Forty counties in Pennsylvania send returns, of which only those from Tioga and Union represent an inferior prospect, and fully three-fourths report more than an average luxuriance. It is stated of Cumberland that, "there are no poor fields and wheat could not look better;" it is "remarkably fine" in Indiana, "though the fly has destroyed parts of fields;" "the fields of Lehigh present a finer appearance than for thirty years," due in part to the fine weather and absence of cold winds in March; wheat in Beaver is "quite promising, especially the drilled fields, and those injured by the fly have recuperated and may yield well." It is stated in the later returns that a few fields, on which straw and long manure were spread, were completely destroyed by the mice, which were so abundant that pastures were injured by them.

Of sheep the only reports of bad condition in Pennsylvania come from Washington county, in that county three-fifths of the sheep have foot-rot; the most successful cure has been to remove the flock, after paring off the diseased part, and dusting over with blue-stone, to a field which has not been pastured by diseased sheep; a hilly, dry, and stony field is preferable; feed small quantities of flour sulphur.

Of pigs in this State the report says: Stock hogs from Indiana have sickened in York, Pennsylvania, and 30 per cent. of that class have died. Abortion has prevailed in Dauphin, attributed to overfeeding with unground corn. Two hundred and fifty pigs under six months old have died in Washington, the remedies applied being salt and alkaline substances; and some fatality is reported in Cumberland, Perry, Indiana, Beaver, Union, Fulton, and Berks; in the latter county the symptoms reported are "loss of appetite, weakness in back and hind legs, with a nervous twitching of the head, which gradually extends to the whole body."

ILLINOIS has strange ways, even of committing suicide. In Warrensburg; recently, Mrs. Alice Day, discovered that her husband had another wife, and shot herself dead. The husband, who was in prison for bigamy at the time, when he heard of the self-murder of one of his consorts, was so overcome by sorrow and remorse that, having nothing else within reach, he swallowed a box of hooks and eyes, a bottle of hair dye, a brass breastpin, several pieces of glass, six vest buttons, and a small penknife. These miscellaneous articles did not prove fatal, but at last accounts Day complained of indigestion.

RANKIN'S BUCHU

Is a *Diuretic* with *tonic* properties; *strengthens* the *Bladder and Kidneys*, and removes all *irritation* and *inflammation* of the urinary organs. It is not a secret remedy, but is prescribed by the regular practice in all affections of the *Bladder and Kidneys*. Sold by all druggists. Price one dollar. Prepared by

RANKIN, Apothecary,
my12 45 Sixth street, under St. Clair Hotel.

MARRIED:

LOWRIE—PATTERSON—On Thursday evening, May 11th, 1871, in the Ref. Pres. Church, Eighth street, Pittsburgh, by the Rev. D. B. Willson, S. O. WYLIE LOWRIE to Miss MARY EMMA PATTERSON, of this city.

DIED:

TOWER—On Sunday morning, May 14th, 1871, ANDREW M. TOWER, in the 28th year of his age.

The funeral from his late residence, 162 River avenue, Allegheny, on THURSDAY, the 16th, at 2 P. M. The friends of the family are respectfully invited to attend.

LAUGHLIN—At Nice, France, on April 9th, 1871, IRWIN B. LAUGHLIN, in the thirty-first year of his age.

The funeral will take place from the residence of his father, James Laughlin, Esq., Duquesne Way, THIS (Monday) AFTERNOON, at two o'clock.

ALEXANDER AIKEN, Undertaker, No. 166 FOURTH AVENUE. Coffins of all kinds, Shrouds, Crape, Gloves, and every description of Funeral Furnishing Goods furnished. Agent for Raymond & Co.'s Patent Metallic Burial Cases. Rooms open day and night. Hearse and Carriages furnished.

GASFIXTURES.
Great Reduction in Prices.
Weldon & Kelly,

WHITE LIME.
200 bbls Cleveland;
100 " Eastern;
100 " Fremont.
For sale by J. B. CANFIELD.

PRINCE PUCKLER-MUSKAW, who has just died at his superb estate in the Province of Brandenburg, near Kottlus, had this passage in his will: "I have very little cash left, I think; but my heirs will honor my memory if they will use part of my money in buying all the copies of my works they can find and destroy them at once." He was a rare exception to the literary vanity of most authors. The Prince left a dying request to the effect that his body should be burned by the fire after his death, or, in case any difficulty presented itself in this respect, it was to be decomposed by some chemical process. His wish has been carried out, though we are not in possession of information as to the precise means adopted to do this. During his life he had a stone pyramid built on a little island in the middle of the lake near Castle Barnitz, his residence, and thither the funeral cortege proceeded with his remains. The pyramid was opened and they were deposited within, and then the aperture was closed up with masonry.

SPECIAL NOTICES.

OFFICERS, SOLDIERS, SAILORS AND MARINES who want the 160 ACRES OF CHOICE LAND, or full particulars respecting the same, should purchase "HOMES IN THE WEST," a neat book of over 100 pages, published by B. F. BROWN, Pittsburgh, Pa. It contains something of interest to all who served in the army or navy ninety days or upward; gives a description of Kansas, Minnesota, Nebraska and other leading cities of the West; all the preemption laws, &c., &c. Price 50 cents. For sale at Room No. 4, New GAZETTE Building, or sent to any address on receipt of price and stamp.

Adress B. F. BROWN,
Pittsburgh, Pa.

IMPORTANT NOTICE.

This interesting and important work will be forwarded on receipt of 25 cents, stamps. Address DRS. JORDAN & DAVIESON, 1625 Filbert street, Philadelphia. All leters will receive immediate attention. Address 1625 FILBERT STREET, Philadelphia. mh29:o90

AUCTION SALES.

Peremptory Sale
OF
FINE RESIDENCE
AT
EDGEWOOD,
P. R. R.

On THURSDAY, May 18th, at 4 o'clock, will be sold on the premises, the property formerly occupied by J. E. Schwartz, Esq., at Edgewood. The ground contains EIGHT ACRES, beautifully situated, fronting on the Pennsylvania Railroad and Braddock's Field Plank Road, within three minutes' walk of Edgewood Station, and five minutes' walk of station on new branch of the Connellsville Railroad to the Allegheny river. Is but a short distance from the new Penn avenue Nicholson Pavement. The grounds are handsomely laid out with gravel roads and walks, and are planted with over 600 Fruit and Ornamental Trees. The house is very tastefully and substantially built, and presents a very imposing appearance. It contains Parlor, Dining Room, Library, Kitchen, 4 Bed rooms, Bath room, Wash room, and attic. The Library has permanent Oiled Walnut Bookcases of 800 to 900 volumes capacity. Range in kitchen. Hot and Cold Water throughout. The entire house is in complete order. House and grounds form altogether a highly desirable residence. Being unoccupied immediate possession will be given. The sale being positive, the special attention is desired of all in quest of a first rate place at a bargain.

Terms—One-third cash; balance in five equal annual payments.

Take 3 o'clock train from Union Depot. Do not forget this sale, as a similarly favorable opportunity to purchase a real good place may not occur for many a day.

A. LEGGATE,
my13 AUCTIONEER.

BUILDING LOTS
BUILDING LOTS
ON
Jackson St., Allegheny.

On TUESDAY, May 16, at 2 o'clock, will be sold by auction, on the premises six vacant building lots, each 20x161 feet to a 20 feet alley, situated on Jackson street, near to Monterey street, second ward, Allegheny. Jackson street having been lately widened, is very much improved in appearance, and is now a desirable street for building. This property is within half a square of the passenger railway. Persons in quest of lots should attend this sale.

Terms—One third cash, balance in two years.

PROPOSALS.

To Iron Manufacturers.
Proposals for the Iron Work of a Second-Order Light House, to be erected on Bolivar Point, Texas, entrance to Galveston Bay.

TREASURY DEPARTMENT,
OFFICE OF THE LIGHT-HOUSE BOARD,
WASHINGTON, May 1, 1871.

Sealed Proposals will be received at this office until one o'clock of FRIDAY, the nineteenth day of May, 1871, from iron manufacturers only, for furnishing the materials and labor of all kinds necessary to construct a Second-order Iron Light-House for Bolivar Point, Texas, in accordance with the accompanying specifications and drawings.

The same to be delivered, at the expense of the contractor, on board of a sea-going vessel or vessels, at any Atlantic or Gulf port nearest to the manufacturer's workshops, and accessible to such vessels.

The brick-work, the glass for the lantern, the lens, the lamps, and furniture, belonging thereto, will be provided by the Light House Board, and their cost is not to be included in the amount of the bid.

The bid should state the sum for which the ENTIRE WORK, as shown on the drawing, will be completed, fully erected at the workshops, and then taken down after acceptance, and delivered as aforesaid; and should also state the day and date on which it shall be completed and delivered, under forfeit, as specified in the "Form of Bid."

The work will be carried on under the personal supervision of an agent of the Board, and all facilities must be afforded him for inspecting the material and workmanship. Such parts of either as are not in accordance with the drawings and specifications must, in case of rejection, be made good at the expense of the contractor.

The Board reserves the right to reject any proposal for any reasons it may deem sufficient.

Each bid must be accompanied by a bond, signed by the bidder and two competent sureties (certified to be such by some officer known to the Treasury Department), in the sum of ten thousand dollars ($10,000), and that, in the event of the acceptance of such bid, the necessary contract will be entered into within ten (10) days after notice is given by the Board that the bid has been accepted.

Bond and security in the sum of ten thousand dollars ($10,000), signed by two competent bondsmen, for the faithful performance of the contract will also be required.

A copy of the plans and specifications must be inclosed with the bid, as evidence as to the object of the proposal.

All proposals must be signed, sealed, and indorsed: "Proposals for a light-house at Bolivar Point, Texas," and then inclosed in another envelope and directed, prepaid, to Rear-Admiral W. B. Shubrick, Chairman of the Light House Board, Treasury Department, Washington, D. C.

Any bidder may be present and witness the opening of the bids at the time and place hereinbefore specified.

Bidders will name the ports at which they will deliver on board ship.

Payments for the work will be made quarterly, upon estimates certified to by the agent of the Board; but twenty (20) per centum of the amount of each estimate will be withheld until the satisfactory completion of the contract.

Plans, specifications and forms of proposals may be obtained from Lieutenant Colonel J. C. Duane, United States Engineers, Portland, Maine, and at 13 Exchange street, Boston, Massachusetts; Lieutenant Colonel I. C. Woodruff, United States Engineers, Tompkinsville, Staten Island, New York; G. Castor Smith, Esq., Assistant Light-House Engineer, southeast corner Sixth and Walnut streets, Philadelphia, Pennsylvania; Captain Peter C. Hains, United States Engineers, Union Bank Building, Baltimore, Maryland; Major W. E. Merrill, United States Engineers, Pittsburgh, Pennsylvania; and from the undersigned.

GEORGE H. ELLIOT,
Major of Engineers, U. S. A.
my6 Engineer Secretary.

Proposals for Building Materials and Work.

OFFICE DEPOT QUARTERMASTER,
JEFFERSONVILLE, IND., April 19, 1871.

SEALED PROPOSALS are invited for building materials and work of the Quartermaster's Depot to be built at Jeffersonville, Indiana.

Separate bids are invited for each class of material, and each class of work. Printed instructions for making bids as above, and blank forms of proposals can be procured on application by letter or otherwise to this office, where plans and specifications can be seen.

All proposals should be in duplicate, addressed to the undersigned and marked "Proposals for ——," and should be accompanied by the names of at least two sufficient sureties, who will guarantee the faithful performance of the contract.

All proposals will be opened and read in public at this office on Wednesday, the 7th of June, 1871, at noon.

The right to reject all bids deemed unreasonable is reserved. C. H. HOYT,
Captain, A. Q. M., U. S. A.,
my8:r66 Depot Quartermaster.

OFFICE OF CITY ENGINEER,
CITY OF ALLEGHENY, May 8th, 1871.

To Sewer Contractors.

The Sewerage Commission of the City of Allegheny are prepared to receive proposals for the construction of the following Sewers, with their appurtenances, inlets, manholes, &c.

Contract No. 1.
Comprising about 1700 feet of 4½ feet and about 400 feet of 3 feet Circular Brick Sewer on Washington avenue, from Pasture Lane to Sedgwick street.

Contract No. 2.
Comprising about 200 feet of 3 feet Circular Brick Sewer, and about 550 feet of 18-inch Circular Pipe Sewer on North avenue, from Sandusky to Esplanade street.

Contract No. 3.
Comprising about 650 feet of 18-inch Circular Pipe Sewer on Frazier alley, from Allegheny avenue to Sedgwick street.

Contract No. 4.
Comprising about 200 feet of 15-inch Circular Pipe Sewer on Burke alley, from Ohio to Avery street.

Drawings and specifications can be seen and full information obtained at this office.

Bids must be endorsed "Sewer Proposal," contract No. 1 (or 2 as the case may be) and delivered on or before 3 P. M., MONDAY, May 15, 1871.

Forms of proposals, on which forms alone bids will be received, will be furnished at this office.

The Commission reserve the right to reject any or all bids.

By order of the Commission.
my8 CHAS. DAVIS, City Engineer.

CITY ENGINEER'S OFFICE,
PITTSBURGH, May 6th, 1871.

NOTICE TO CONTRACTORS.—Sealed Proposals will be received at this office until 3 o'clock P. M., TUESDAY, May 16, 1871, for the Grading, Paving and Curbing of the following named Streets and Alleys:

High street, from Fifth avenue to Old avenue.
39th street, from Butler street to Penn avenue.
Union alley, from Penn avenue to 38th street.
Mulberry alley, from 36th street to 37th street.
Also, for the Grading and Macadamizing Anderson avenue.

The Committee reserve the right to reject any or all bids.

Specifications can be seen, and blanks for bidding can be had at this office.

No bids will be received unless made upon blanks furnished by this office.

my6:r55 H. J. MOORE, City Engineer.

NOTICE TO CONTRACTORS.—Proposals will be received by the Market Committee until MONDAY, May 22, 1871, for the

Construction of Sidewalks

At the Fifth Avenue Market House on three fronts, viz: Fifth avenue, Miltenberger street and Beech alley, to include the resetting with new curb stone of the Fifth avenue front. Bidders will state price per foot for curb stone and price per yard for paving, including the hauling away of all refuse. No extras allowed. All material used to be of the very best quality, and work to be done in a good and workmanlike manner.

The Committee reserve the right to reject any or all bids.

By order of Market Committee. my13:s24

SCHOOL FURNITURE.—Proposals will be received at the office of Craig Brothers, 129 Second avenue, until SATURDAY, May 27th, for the SCHOOL DESKS and STATIONARY CHAIRS of the City High School. Bidders are requested to have samples of their furniture left at the Grant School Building, on Grant street.

By order of the Building Committee.

LEGAL.

WM. C. PATTERSON, et al., vs. THE HEMPFIELD R. R., et al.

Supreme Court of Pennsylvania, Eastern District, No. 18, January T., 1860.

And now, March 30, 1871, the Report of the Trustees having been presented to the Court, the Court, after due consideration thereof, confirm the sale of the premises as stated therein, and order the same to be and remain firm and stable to the purchaser, JOHN KING, JR., unless exceptions be filed within ten days from date, and the Trustees do execute and deliver to said purchaser a deed for the same: and E BRADFORD TODD is hereby appointed a Master to make distribution, as provided for in the decree made in this case.

From the Record. PER CURIAM.

Seal of the Supreme Court of Pennsylvania.

In testimony whereof I have hereunto set my hand and affixed the seal of said Court, at Philadelphia, this 15th day of April, A.D. 1871.

JAMES ROSS SNOWDEN,
Prothonotary.

All persons interested will please to take notice that the subscriber, appointed by the Hon. The Supreme Court of Pennsylvania, Master to make distribution, according to law, of the fund, the proceeds of the sale of the premises of the Hempfield Railroad, above mentioned, among such parties as may be entitled to the same, will attend for the purpose of his appointment, at his office, No. 144 Fourth avenue, in the city of Pittsburgh, Allegheny county, Pennsylvania, on WEDNESDAY, the 31st day of May, 1871, at 10 o'clock, A. M

Master, &c.
PITTSBURGH, May 5, 1871. my8:r64

IN THE COURT OF QUARTER SESSIONS. No. of March Sessions, 1871. Miscellaneous Docket.

In the matter of the vacation of Siegel street and Franz alley, in the Sixth ward of the city of Allegheny.

And now, to-wit April 29 A. D. 1871, the petition in this case having been presented in open Court, it is ordered to be filed, and the Court do grant a rule, as prayed for therein, to show cause why the said Seigel street and Franz alley, fully described in said petition should not be closed up and vacated, and do further order notice of the filing of said petition and of the granting of the rule aforesaid be published twice a week for four weeks in the DAILY GAZETTE, a newspaper published in the city of Pittsburgh.

By the Court.

From the Record.
my8:64-MTH JOSEPH BROWNE, Clerk.

IN THE COURT OF COMMON Pleas of Allegheny county of June Term, 1871.

Notice is hereby given, that Smith & Co., proprietors of Allegheny Brewery, have filed in the office of the Prothonotary of said Court, the following description of brands and private marks, viz: Brands—"Smith & Co.," "Ale," "Allegheny Brewery." Private marks—"B. Y." "B" stamped on end of stave. Red Ring on each end of barrel between 1st and 2d hoops. JOSEPH ROSS,
